BIDS FOR PIERS AT OGDEN POINT

Plans Ready and Tenders for Great Harbor Work at Victoria Will Be Called for Immediately.

AN EXPENDITURE OF ABOUT TWO MILLIONS

Chief Architect Ewart, of Public Works Department, Is Coming to Coast on Trip of Official Inspection.

(Special to The Colonist)

OTTAWA, July 18.—Plans for the harbor work for this season at Victoria have now been completed by the engineering branch of the Public Works Department, and as soon as the specifications are printed tenders will be called for.

This means tenders will likely be asked for next week sometime, and the contract will be let some time early in August.

The work calls for the building of two piers, one of a thousand feet and the other eight hundred and seventy feet in length.

They will be built of concrete and crib work, and will provide three berths for the largest liners.

The estimated cost of the work is around two million dollars, and it is said that Victoria will be made a real national port, capable of handling the largest steamers and of taking care of the development which is looked for with the opening of the Panama Canal.

Chief Architect Coming

OTTAWA, July 18.—Chief Architect Ewart, of the Public Works Department, has left for a trip of official inspection which will take him across Canada.

Mr. Ewart will stop at all places where important public works are in progress. The Department at present has several large undertakings under way in the West, and more of them planned, such as large drydocks on the Pacific Coast and storage elevators at various Western points.

The chief architect will be away porbably for a month or more, and will spend some time for the benefit of his health also.

Will Probated at Toronto

TORONTO, Ont., July 18.—The will of the late Senator Archibald Campbell was probated today. The entire estate amounts to $260,000, all left to his widow.

TORONTO CUSTOM HOUSE

New Building Planned by the Dominion Government Will Cost $2,000,000 When Completed

TORONTO, Ont., July 18.—The new custom house planned with other new Dominion Government buildings in this city, will cost $2,000,000 when completed. Yonge and Front Streets will be widened to provide an approach to the new buildings. The new union passenger station will also cost in the neighborhood of $2,000,000.

CROWN CLOSES ITS CASE

Counsel for McNamara Will Endeavor to Prove Alibi—To Appeal on Legal Points

NEW WESTMINSTER, July 18.—The Crown closed its case against John McNamara this afternoon, and, after an unsuccessful argument by Sir Charles Hibbert Tupper, based on two legal points, that the case should be taken away from the jury, the defence called its first witness. Judging from the address of junior counsel, Adam S. Johnston, there will be quite a number of witnesses, and it is proposed to establish a complete alibi for the morning of September 15, the day of the robbery.

Public interest is still very great, the courtroom being at all times crowded, and the disputation of counsel followed with relish. "I object," was heard repeatedly today, counsel for the defence rising time after time to urge that certain documentary testimony proferred was against the rules of evidence, declaring on one occasion that it was against all his notions of British law and its administration to have proof of certain things adduced in the way attempted, and to have new witnesses "sprung" on the other side.

Upon the two points on which counsel for the defence was overruled when the Crown closed its case, and when he asked Mr. Justice Morrison to take the case away from the jury, the judge will be asked for a stated case, so that it can be taken to appeal.

Churches Will Unite.

MONTREAL, July 18.—An experiment in church union is to be inaugurated Sunday at St. Anne's, Bellevue, which will bring to an end an ecclesiastical deadlock of some years duration, and also will offer the first example of three churches uniting upon what it is hoped will be a permanent basis in the Island of Montreal. Congregationalists, Methodists and Presbyterians of St. Anne's will assemble together in the school room at St. Anne's for the first union service in which representatives of three churches will take part.

Activity at Site Where Two Large Piers Are to Be Built

WELCOME FOR BATTLE CRUISER

Tentative Programme Drawn Up in Connection With Visit of H. M. S. New Zealand—Leaves Honolulu.

H. M. S. New Zealand left Honolulu en route for Esquimalt yesterday, after her officers and crew had been given a week of entertainment. She is scheduled to cast anchor in the harbor of Victoria's sister municipality on the afternoon of Friday, July 25. On Sunday the ship of war will leave for Vancouver, returning here on August 4 and remaining six days, or during the greater part of the Carnival festivities.

While the battleship was at Honolulu the residents did everything possible to give their visitors a good time. On Thursday Captain Halsey and his officers reviewed the infantry, cavalry, and military stationed at Fort Schofield. Before departing, the commander entertained at dinner General and Mrs. Funston, Admiral Moore, and Consul Rentieres and Mrs. Rentieres. There was a large crowd to witness the ship's departure, the American band playing "God Save the King," while the vessel's band rendered "The Star Spangled Banner."

This is but a sample of the receptions which have been accorded H. M. S. New Zealand at every port at which she has touched. If the present plans announced by the Provincial Government, the city of Victoria, Esquimalt Municipality, the Navy League, and other local organizations, are carried through, Captain Halsey, his officers, the midshipmen, and the "jolly tars" of the crew will have difficulty in filling all the engagements set for them. Certainly there is every prospect that the ship will not only be rousingly received by Victorians, but that those with her in positions of responsibility, as well as the sailors, will be given a splendid time.

A Tentative Programme

Following is a roughly drawn, and purely tentative programme of what Victoria proposes to do in honor of H. M. S. New Zealand, her officers and crew:

H. M. S. New Zealand arrives on the afternoon of Friday, July 25.

Reception to officers aboard ship shortly after her arrival, by Provincial and civic officials and by officers of the Victoria Branch of the Navy League, Mrs. W. J. Roper, as Regent, representing the Navy League Chapter of the Daughters of Empire.

On the evening of the same day there will be a formal dinner at the Empress Hotel, given by Premier Sir Richard McBride and other members of the Provincial Government, in honor of Captain Halsey, commander of H. M. S. New Zealand, and his officers.

At 9 o'clock the same evening a public reception will be held in the Legislative Chambers of the Parliament Buildings.

Hon. J. D. Hazen, Minister of Marine, will entertain Captain Halsey and his officers at dinner at the Empress Hotel on Saturday evening, July 26.

On Sunday, H. M. S. New Zealand leaves for Vancouver, to return to Esquimalt on August 4.

Members of the Union Club have arranged to give a ball on the evening of August 4, in honor of the officers of the vessel.

Mrs. W. J. Roper, acting as Regent of the Navy League Chapter of the Daughters of Empire, will entertain the visitors at her residence, Beach Drive, on the evening of Tuesday, August 5.

Lieutenant-Governor Paterson will have Captain Halsey and other officers of H. M. S. New Zealand as his guests at Government House on Wednesday, August 6.

WILL REPAIR HIGHWAY

Halifax Motor Car Owners Will Devote Day to Carrying Out Much Needed Improvements

HALIFAX, N. S., July 18.—The Halifax Automobile Association has inaugurated a good roads movement along unique lines. On Wednesday next, all automobilists in the city will start out in their cars with laborers in each, and plan to thoroughly repair a bad stretch of some twenty miles of road outside the city. Finding that previous financial efforts have failed, they now intend to devote their own muscle to improving the highways.

G.T.P. Orders New Locomotives

TORONTO, Ont., July 18.—The Grand Trunk Railway management has placed an order for seventy-five locomotives. Fifty will be used on the Canadian lines and twenty-five will be used in the United States. The locomotives will be of the modern type, costing $25,000 each, so that the company will pay out $1,875,000 within the next year. Most of them will be built in the Montreal shops and some of them in Philadelphia.

PROPOSES TRUNK LINE TO ALASKA

Sir Richard McBride Desirous That Canadian and United States Governments Shall Unite in Project.

The proposal of Sir Richard McBride that the Governments of Canada and the United States shall unite in constructing a trunk line of railway that will connect the Alaskan and Canadian lines, is being received with favor wherever it is mentioned. In a private letter from Hon. J. F. A. Strong, Governor of Alaska, he expresses his hearty sympathy with the proposal and his willingness to do whatever he can to promote the mutual welfare of Canada and Alaska.

"Speaking generally, the proposed railway would be a main artery carrying the life blood of progress to an area of more than three-quarters of a million square miles of territory rich in natural resources of various kinds. Northern British Columbia and the Yukon Territory contain, by careful estimate, sufficient arable land to support a million people by agriculture. The Alaskan Agricultural Bureau, after careful in-

BLUEJACKETS JOIN IN SEATTLE RIOT

Sailors From Warships Aided by Civilians Attack Socialist and I. W. W. Headquarters—Furniture Wrecked.

SEATTLE, Wash., July 18.—Crowds of sailors from the Pacific reserve fleet at anchor in the bay, aided by hundreds of men and boys, who came downtown to join in the Potlatch celebration, attacked the Socialist and the I.W.W. headquarters tonight, sacking the buildings and throwing the furniture into the street.

Two distinct parties made the attack. The first, in the northern part of the district, wrecked the Socialist headquarters near Fifth Avenue; the second, in the southern part of the downtown section, attacked the I.W.W. headquarters, throwing the furniture into the street and making a bonfire of it.

A provost guard of about fifty men was sent ashore from the warships to quell the disorder, but at 1:30 a.m. 200 civilians, headed by a dozen man-of-warsmen carrying aloft the Stars and stripes, paraded down Fourth Avenue from Pike Street toward Washington Street, where most of the I.W.W. congregate.

The police and the provost guard have taken hold of the situation and believe that no further damage will be done. The provost guard is rounding up all the sailors ashore and sending them back to their ships.

Rumors That R. J. Fleming, of Toronto, Will Be Transportation Manager of System

TORONTO, Ont., July 18.—That R. J. Fleming, manager of the Toronto Railway Company, will be transportation manager of the Canadian Northern Railway system is the report current in railway circles. It is said that Sir William Mackenzie finds Mr. Fleming too valuable a man to let go with the local street railway if it is sold to the city.

Binder Twine Will Be Higher

LETHBRIDGE, Alta., July 18.—It is said on good authority that there will be no shortage of labor for the harvest in Southern Alberta, but there will be a shortage of binder twine of the best grades, and that it will be from one to two cents a pound higher than last year.

MELLEN'S RESIGNATION

Attorney-General of United States Declines to Discuss Effect on Government Investigation

WASHINGTON, D. C., July 18.—Attorney-General McReynolds was asked today if the resignation of President Mellen, of the New York, New Haven & Hartford Railroad, would have any effect upon the Government's investigation into the roads operating in violation of the Sherman law. He said: "I hope Mr. Mellen's resignation indicates a desire on the part of the road to come more closely within the law than it has." He refused to discuss the subject further.

Foxes Will Be Inspected

CHARLOTTETOWN, P. E. I., July 18.—In order to meet the wishes of fox ranchers who held several meetings to discuss the question, the Federal Department of Agriculture has arranged for the inspection of all foxes imported to this Province, and for quarantine in case of disease. There were complaints about the inferior quality and diseased condition of the stock coming here recently in such large numbers from neighboring Provinces.

PREMIERS WILL MEET IN OCTOBER

Question of Presenting Claims for Increase of Federal Subsidies to Provinces Will Be Considered.

TORONTO, Ont., July 18.—It has been definitely determined that a conference of the premiers of the different provinces will be held at Ottawa in October next.

The announcement was made at the Parliament Buildings today that a joint letter has been addressed to the different premiers by Sir James Whitney and Sir Lomer Gouin, summoning the conference. The question to be discussed will be that of the presentation of claims for an increase of the Federal subsidies to the different provinces. Another question is that of the incorporation of provincial companies.

Sentenced for Manslaughter

CHARLOTTETOWN, P.E.I., July 18.—At Georgetown today in the Supreme Court, Judge Fitzgerald sentenced James A. McInnes to four years in Dorchester Penitentiary for manslaughter, in causing the death of his cousin G. J. McInnes, of Lahoville.

GREAT VICTORY FOR BULGARIANS

Greek Force Is Defeated With Enormous Losses—Six Thousand Prisoners Have Already Arrived at Vladia.

LONDON, July 18.—Telegraphing from Sofia under date of Thursday, the correspondent of The Times says a great Bulgarian victory over the Greeks at Strumitza which was concealed by the authorities for political reasons, is now confirmed. The correspondent adds that the Greek losses were enormous, and that six thousand Greek prisoners already have arrived at Vladia near Sofia.

A report comes by way of Paris that a battle is progressing between the Roumanians and Bulgarians at Belogradchek, sixty-five miles northwest of Sofia, which was not mentioned today in direct dispatches received from Bucharest.

Bulgaria now is seeking through Italy to obtain peace terms from Roumania, but no progress appears to have been made towards negotiations, and all three of her enemies are closing in on the Bulgarian capital with the apparent determination to dictate terms of peace when their armies occupy Sofia.

Roumania's Reply

A dispatch to The Morning Post from Bucharest says that King Charles of Roumania replied today to the appeal of King Ferdinand of Bulgaria for peace terms by referring him to Roumania's last note demanding the cessions to Roumania of the Bulgarian territory situated between Turtukai in North Bulgaria and Baltschik, on the Black Sea.

According to a dispatch from Athens to The Daily Telegraph King Ferdinand has addressed a note to the French

TORONTO TO BUY STREET RAILWAYS

Agreement Reached at Conference of City Officials and Representatives of the Mackenzie Interests.

TWENTY-TWO MILLIONS INVOLVED IN PROPOSAL

Municipality to Acquire all Privately Owned Electric Tramway Franchises and Light and Power Company.

TORONTO, Ont., July 18.—The sale of every privately owned electrical railway franchise, the Interurban Light & Power Company and all assets of such interests within the city limits, for $22,000,000, if reports show their property and rights worth this amount, is the essential feature of the agreement reached yesterday between Mayor Hocken and Comptroller McCarthy, after a keen and lengthy battle of wits with E. K. Wood, William Moore, Z. A. Lash and other representatives of the Mackenzie interests in the city.

The price of $22,000,000 includes the Toronto, and the Toronto & Suburban Railway's assets and franchises, the Interurban Light & Power Company, the end of the Metropolitan Railway on Yonge Street, the sections of all radial lines within the city limits; in brief, all the tracks and rights within the city limits.

May Acquire Extensions

Provision has been made, it is understood, by which the city may acquire other portions of such radials as the city boundaries are extended. It is a complete clean-up of all electrical railway franchises in the city. The deal is conditional upon the city acquiring the Toronto Electric Light Company's franchise and holdings at a price of $8,000,000.

For the entire deal the city will be required to raise only $8,000,000 cash by the sale of the city bonds secured by the properties acquired.

Commissioners Sail for Home

QUEENSTOWN, Ireland, July 18.—Sixty-one members of the American Commission on agricultural organization, co-operation and rural credits, who have been investigating the systems of farming throughout Europe and the British Isles, sailed for New York today on the steamer Cedric. The commissioners say they were highly satisfied with their tour.

WINNIPEG'S NEW LOAN

Applications Invited for Subscriptions in London—Proposed Extension of Waterworks

LONDON, July 18.—Applications were invited this morning for subscriptions for a City of Winnipeg loan of $3,450,000 at 4½ per cent, the price being 97. The loan, which is redeemable at par in 1963, will be utilized for the extension of the civic water supply and electrical and other public works. Winnipeg's existing liabilities, exclusive of the present issue, amounts to nearly $35,000,000.

INCENDIARY AT WINNIPEG

Attempt to Set Fire to Parliament Buildings—Flames Discovered by Watchman

WINNIPEG, Man., July 18.—A futile attempt was made this evening by a man of whom the police have a description, to set fire to the Parliament Buildings by lighting a pile of papers in the furnace room. The watchman in making his rounds discovered the fire and sent in an alarm. The fire was quickly extinguished.

Granted Use of Bed of River

OTTAWA, July 18.—A license of occupation for ten years has been issued by the Department of Interior to the Vancouver Power Company for a part of the bed of the Fraser River at Mission, B. C. The company will lay submarine cables in connection with its power transmission lines.

Steel Company Incorporated

OTTAWA, July 18.—The International Steel Corporation, with headquarters at Toronto, has received incorporation under Dominion letters patent. The provisional directors include Donald A. McRee, Thomas W. Lawson and H. E. McKittrick, barristers, of Toronto.

DR. SUN YAT SEN FAVORS REVOLT

Former Provisional President of Chinese Republic Throws in His Lot With the Southern Provinces.

PEKING, July 18.—Four thousand Southern rebels from Nanking, Province of Kiang Su, who had crossed the Yangtse Kiang to attack the Northerners, met defeat today at the hands of 2,000 loyal troops near Suchow Fu, in the northwestern part of Kiang Su Province, and a short distance across the northern border of Anhowei Province.

Dr. Sun Yat Sen, former Provisional President of the Republic, finally has taken sides in the revolt by openly proceeding to Nanking, where the Southerners apparently are much disheartened by their defeat.

Wuchang, capital of the Province of Hu Peh, remains loyal to the Government, and indications are that others which had declared in favor of the Southern revolutionists, are preparing to renew their allegiance.

Proclaim New President

One big defeat of the revolutionists practically would end the rebellion, while a substantial victory by them would result in unanimity of sentiment in their favor in many of the Southern Provinces.

The Southerners have been joined by the forces at Wu Sung, a seaport ten miles north of Shanghai, and Nanking, the Southern capital, both in the Province of Kiangsu, while the large force of troops occupying them has also gone over to the rebels.

The leaders of the Southern forces issued a proclamation today announcing the election as President of the Republic of Tsenchun Hsuan, a former viceroy of Canton and Tuan Shi Kai's old enemy. Wang Chung Wei is named foreign minister, and Cheng Hsuan Hui, finance minister.

The Southern rebels yesterday killed twenty officers who had remained loyal to the Peking Government.

Conference in Peking

LONDON, July 19.—President Yuan Shi Kai will meet the representatives of the southern provinces tonight, presumably to discuss a compromise, says the Peking correspondent of The Times. The correspondent adds that the present movement in China appears to be mainly military and political and that there is no evidence of a widespread demand by the people for a change in government.

PROPOSES TRUNK LINE TO ALASKA

Continued From Page 1

vestigation, has reported that "the total tillable and pasture land of Alaska is estimated at 64,000,000 acres," and adds, "All the crops that can be raised in Sweden, Finland and the northern provinces of Russia—potatoes, root crops, barley, oats, carrots, beets, turnips and celery—can be raised there." The bureau also says that there is more agricultural land in the Lenaux Valley than is now under cultivation in the corresponding region of Norway, Sweden, Finland and the four northern provinces of Russia." The mineral wealth of the whole region is enormous.

This imperial area, which is almost equally divided between Canada and the United States, is at present absolutely cut off from land communication with existing railway systems, and can only be reached by a sea voyage of several days' duration, which militates very greatly against its development. There are already between five hundred and six hundred miles of railway, either constructed or in course of construction, in this great and only meagerly exploited region.

GREAT VICTORY FOR BULGARIANS

Continued From Page 1

President, M. Poincare, soliciting France's intervention and entrusting Bulgaria's interests to the Powers.

Will Not Occupy Sofia

Rumors have been current in some of the European capitals to the effect that King Ferdinand is in flight and that his Queen has arrived at Erbstbrunn, in lower Austria, where her nephew, the Prince of Reuss, resides. Both rumors are denied in Bulgarian headquarters.

The Daily Mail's Bucharest correspondent says the Roumanian Government has not actually decided to occupy Sofia but will take all the passes stretching across Bulgaria.

Queen Eleanor of Bulgaria has telegraphed an appeal to Queen Carmen Sylva of Roumania to stop the advance of the Roumanian army. The Roumanian Queen replied that the troops would continue to advance "but with the greatest consideration."

Canoe Fatality

ST. JOHN, N.B., July 18.—In an effort to save the life of his chum yesterday, Sydney Fulton, aged 15, of St. John West, drowned, as well as William Collins, aged 16, of the same place. Collins was in a canoe, which upset. Fulton, who was on the shore, swam to his friend's assistance, and both were drowned before help could reach them.

Tom Hewlett Dies at Ottawa

OTTAWA, July 18.—When Parliament reassembles, the familiar face of Tom Hewlett, who for the past thirty-five years has done duty as guardian of the Conservative rooms in the House of Commons, will be missed by legislators on both sides of the House. His death occurred yesterday at the capital. He was 65 years old.

TRIBUTE TO AMBASSADOR

London Morning Post Praises Speech Delivered by W. H. Page at Anglo-Saxon Club

LONDON, July 18.—The Morning Post, in an editorial today dealing with the speech of Walter H. Page, at the banquet of the Anglo-Saxon Club, given in his honor on Thursday night, expresses its admiration for what it terms Mr. Page's first notable utterance in England, and says it gives ample assurances that he will adorn the long line of distinguished ambassadors to Great Britain. Mr. Page could have chosen no better subject than the relations of the Anglo-Saxon race.

A reference by Mr. Page in his speech to the large gifts of money in the United States to an international health campaign, created great interest here. He was quoted as having said that a hundred million dollars had been unanimously given to aid an international health commission to combat diseases.

In an intervieww yesterday, Mr. Page said he had been misunderstood. The gift he referred to was not that of a single American citizen, but a foundation established by a number of wealthy men, the income of which would be devoted to the study and cure of diseases among native races in all parts of the world.

FATALITIES FROM HEAT

More Than Twenty Deaths Reported in Middle West States—Maximum Temperature of 104 at Louisville

CHICAGO, Ills., July 18.—More than twenty deaths were caused by heat today in the Middle West States. Louisville was the worst sufferer with twelve deaths, a maximum temperature of 104 and only thirteen degrees drop at night. St. Louis added three more to that city's list of dead in the present heat wave. Extreme temperature prevailed throughout portions of Missouri, Illinois and Indiana. Unusual variations in temperature, however, were recorded at the Government bureaus.

INDIANAPOLIS, Ind., July 18.—Six deaths and numerous prostrations in Indiana were the result of a heat wave today. Five persons were drowned while seeking relief in swimming pools, and another was overcome and died on board a steamboat. Princeton was officially the hottest spot in the state, with 105 degrees. Evansville's government thermometer registered 100. At Indianapolis the maximum was 90.

ST. LOUIS, July 18.—Three deaths and as many prostrations were caused by the heat today. The government thermometer registered 102. Among the prostrated was Captain Henry King, editor of The Globe-Democrat. He fell while walking in the street, but was revived at home. A mass of clouds swept over the city in the afternoon, and the mercury began racing downward as fast as it had climbed. At 9 o'clock it had dropped to 85 degrees.

KNOXVILLE, Tenn., July 18.—Knoxville had the hottest day in twenty-six years today, when the mercury in the government thermometer climbed to 100 degrees. Six prostrations were recorded.

Slogan Is Denounced

CALGARY, Alta., July 18.—"Intelligent farmers no longer pray for rain; they pay for it," the slogan of the Western Irrigation Congress, came in for a severe condemnation by the delegates to the Anglican Synod today. Canon McMillan, in moving the resolution of condemnation, remarked that Calgary firms especially were offending in this respect.

Seeking Missionaries

TORONTO, Ont., July 18.—Rev. R. O. Darwin, superintendent of the Methodist missions in Saskatchewan, is here looking for forty-nine missionaries for that province.

LARGE FORCE AT WORK ON C.N.R.

General Manager McLeod Tells of Progress on Western Lines—Numerous Branches Have Been Planned.

EDMONTON, Alta., July 18.—H. N. McLeod, general manager of the Canadian Northern Railway, announced on arriving in Edmonton from an inspection trip over the western lines, that 25,000 men are employed on construction work in the Provinces of Alberta and British Columbia. Most of the men are on the main line, which, he added, will be completed before the close of 1914.

"We are rushing work on all lines," Mr. McLeod said, "but we have not yet reached the stage as to the exact date for the opening of the transcontinental line.

"Just as soon as the main line is completed the men now employed in its construction will be placed at work on the numerous branch lines which the company has planned throughout the Western Provinces. I believe that the next five years will be the most active, so far as railway construction is concerned, the Prairie Provinces have witnessed."

Mr. McLeod announced that work on the big tunnel at Mile 31, British Columbia, is progressing, also that construction work is being rushed in the branch from Camrose to Edmonton South.

Candidate for Judgeship

OTTAWA July 18.—A candidate for the vacant judgeship in Renfrew County is J. U. Vincent, who ran as a Nationalist against Hon. Charles Murphy in the last Federal election. A petition has been presented to Hon. C. J. Doherty, Minister of Justice, backing the claims of Mr. Vincent, who is a French Catholic. In the petition it is said that there are 10,000 Catholics of other than Irish nationality in the county.

Completes Hydro-Aeroplane Flight

DETROIT, Mich., July 18.—Beckwith Havens completed a flying boat trip from Chicago to Detroit shortly after 4 o'clock this afternoon. He followed the route planned for the Chicago to Detroit aviation cruise and covered 900 miles. It is said to have been the most remarkable trip ever undertaken by flying boats.

Homesteader Drowned

CLYDE, Alta., July 18.—Amil Brulotte, who has a homestead near Grouard, was drowned this afternoon while crossing a river. He had gone over there in a boat to get a horse and returned on the horse's back, and while attempting to cross the river was swept downstream.

Injuries Prove Fatal

PORT DOVER, Ont., July 18.—Captain James Low was struck by a train near here and received injuries from which he died. He had been sailing the Lakes for years and latterly had a large interest in a fishing industry. Mrs. Brooks, of Vancouver, is a daughter.

Farmer Killed by Lightning

POWHASSON, Ont., July 18.—During an electrical storm here this afternoon Thomas Stillar, a farmer, was killed. He was sitting in his home with a baby on his knee when the fatal bolt came. The child was uninjured.

School of Handicraft and Design

719 Courtney St., Victoria

Lessons in the following subjects—7:30 to 9:30 p.m.:

Woodcarving—Miss Hendy, Monday
Artistic Bookbinding—Miss Jang ..... Monday
Practical Design—Mr. Bergvelt ..... Tuesday
Clay Modelling—Mr. Mold, Wednesday
Jewelry—Miss O. Meadows, Wednesday
The Principle of Design—Miss Mills ..... Thursday
Metal Work—Mr. Mold ..... Friday

Classes Commence April 1.

TERMS—$4 per quarter for one subject, payable in advance, or $2 each for two or more subjects; one lesson a week in each subject.

For further information apply to the instructors at the above address.

MANY COMPLICATIONS IN SEALERS' CLAIMS

Fresh Problems Brought Up by Cases Wherein Men Seek Compensation in Various Capacities.

Fresh problems confront the Sealing Commission at every sitting, and the argument which counsel will conduct before Mr. Justice Audette at a later stage promises to be of a most intricate character. Yesterday in two cases one claimant combined the parts of owner and captain and another those of part owner, hunter and administrator. A further nice point arose when Captain Harald stated that he was driven to joining the Victoria Sealing Company, and yet claimed for loss of income while yet an owner in it. Mr. McPhillips submitted that though the company theoretically should have been operated more cheaply than individual schooners, yet that it was possible that less schooners were sent out year by year by that company, and therefore that the profits would not have increased as might have been expected.

The first case yesterday morning was the claim of Captain Charles I. Harris, Master of the E. B. Marvin in 1894, of the Charlotte G. Cox in 1895, and of the E. B. Marvin from that year till 1897, when he gave up the sealing industry. His total claim amounted to $28,972, made up partly of losses through smaller catches brought about by the regulations while sealing during the period of August 15, 1894 to 1897, and further of the estimated amount of his earnings over a period of five years from 1911. The cross-examination elicited the fact that it was thought useless to take white crews in 1895 to the Behring Sea to use spears, but that by the next year spears had been provided and they might have gone but for orders received from owners which reached him at Hakodate. They were obliged to have rifles and all ammunition numbered and sealed up. No Indians would go to the Japan fishing.

How the Seal Is Killed.

Captain Harris described the spear and the method of capture. The sealing boats were 20 feet long and contained at first three men and afterwards two. They rowed up from leeward to catch the seal asleep when it lay with the body floating on the top and visible along the whole length. Sometimes it would be a "finner," i. e. a seal awake and watching all round with one fin waving in the air. Both the hearing and the smelling powers of the seal were very acute, and once it became a "traveller" only the head showed above water, presenting a small mark. Both sealing boats and the canoes of the Indians used sail when possible "to sneak up on to the seal." The Indians were expert throwers of the spear up to the full extent of the line fastened to it namely 50 yards, but it was much more necessary to get close up with that weapon than when using a shot gun. In fact a travelling seal would rarely be hit by a spear. Captain Clarence Cox was the only captain to sign on a crew of Indians for the Japan sea.

Captain Harris gave up the industry in 1897. He could not get work ashore in 1898 and 1899, tried the Yukon without avail and for the last four years had been a Victoria and Esquimalt pilot, at an average salary of $2,500 a year. He found it hard to get crews of white men after the regulations came into force, and there was diminution of employment generally, fewer ships being sent out.

Master and Part Owner.

Mr. McPhillips next opened the case of Captain Thomas Harald, a Finn by birth, who built and owned half of the Aurora and the Borealis, and at times sailed on the first as nominal master. He claimed as both master and owner for 1894, but the Commissioner disallowed the master's claim as there was another master on board, and the claim was amended accordingly. The Aurora was sold in 1900 to Mr. T. Bechtel, and the Borealis went into the Victoria Sealing Company, crediting her owner with 602 shares, worth perhaps $6,000. The profit on seals to the ship during 1896-1899, varied from $5 to $6.50. He chartered the Aurora to Captain Brown in 1898, retaining one-fifth share but she was seized by the Americans.

The Commissioner remarked that after the facts had all been taken a general argument would then be necessary as to the points which form the reason for compensation in each class of case.

Captain George Heater's claim for $37,890 was next opened by Mr. McPhillips, and documents were put in showing that prior to August 15, 1894, official warnings as to the regulations being in force had reached the sealing captains. Captain Heater commanded the Hyacinth in that year, and subsequently the Penelope, the Allie I. Alger, the Markland, the Vera and the Jessie. After 1911 he was out of work for some eight months, and then went partners with Mr. T. Bechtel and another in the Jessie, and went halibut fishing, but they were still not ahead on the transaction, though he might have drawn on his partner for $300 to $400. She was an exceptionally well built schooner, and his quarter share was worth $1,500. Mr. Bechtel had put a gasoline engine in her. They hoped to make money out of her in the end.

In Several Capacities.

The Commissioner next proceeded to consider the cases of Captain Thomas Henry Brown, first as part owner in the Maud S. in 1894. In this vessel he held seven shares out of 64, and had paid for these $700 in cash besides a share in fitting her out each year (except one) as her catches had not been enough to pay for this. The vessel was finally lost on the Queen Charlotte Islands in 1897, becoming a total loss. He reckoned he had put $1,385 altogether in her. He quit sealing in 1897, went steamboating to the Yukon and for the last five years had been master of a Government dredger, at a rising salary, which had now reached $160 a month with keep. His claim amounted to $6,685.

Captain Brown then took the oath afresh to testify in his claim as hunter and master and as one of five charterers. In this he claimed $35,792.60. In 1896 the Aurora was seized and sent back by an American cutter, but she was acquitted in the Victoria court, though she had never received any compensation. He claimed that this interference with his Summer's fishing was the outcome of the regulations, and after some demur the Commissioner allowed the facts in support of this to be taken, though he considered the proper place to make this claim was before an international commission now sitting, which is attempting to adjust all claims between Great Britain and the United States as far back as 1790.

On the witness remarking that he was prevented from pursuing the sealing business, Mr. Justice Audette remarked that was a loss common to all the Dominion. "Neither Mr. McPhillips nor myself can engage in the sealing business."

His Lordship took the opportunity of pointing out that the whole of the nation had suffered loss in this respect, and that any moneys remaining over after these claims had been dealt with would rightly go to compensate the public generally.

Captain Brown's second case will be resumed this morning, and following that he will make a third appearance on the witness stand, claiming as an administrator.

JURY COULD RETURN ONLY OPEN VERDICT

How Ernest Vanden, Sober and Industrious, Came to His Death by Drowning in Harbor Remains Mystery.

Mystery surrounds the death of the man, whose body was found in the harbor on Thursday morning by a fisherman who found it floating in the water just off Hospital Point. The body has been identified as that of Ernest Vanden, a Belgian, employed by Jones & Rant, contractors, on land clearing and fencing work. The inquest held yesterday brought out the evidence that Vanden was last seen on July 2, when he was given a note by Mr. Jones to the foreman in charge of work on the Government experimental farm property near Sidney. Vanden was then in excellent spirits, was absolutely sober and expressed his intention of leaving immediately for the experimental farm. In fact, he was a man of sober habits, and Mr. Jones testified at the inquest that he was totally unable to account for the fact of his being picked up in the harbor. His movements, following the time he left Mr. Jones, have not been ascertained.

The identification of the body, the features of which had been more or less obliterated by reason of the action of the water, was made by means of a note found in the clothing. This note, the one from Mr. Jones to the foreman on the work at the experimental farm, led to police inquiries and the identification of the body.

Mr. Jones, at the inquest, testified that Vanden had been employed by him on work near Port Alberni. He had suffered an accident to his foot and entered the hospital there, being discharged about the end of June. When he came out the job was finished and Vanden returned to Victoria, where he received $48.25 insurance on account of his accident. On July 2 he received the note from Mr. Jones to the foreman, and left Mr. Jones' office, stating his intention of leaving immediately for the experimental farm. A few days ago some mail was sent out to Sidney for him, his employers being under the impression that he had gone there and started work.

Dr. Raynor, who performed the post mortem examination, testified that the body was that of a well developed man about 35 or 40 years of age. There were no marks of violence or poisoning, and all indications pointed to death by drowning. Evidence of the finding of the body and subsequent action by the police was also given.

The jury returned an open verdict of "found drowned." The jury was composed of Messrs. John Mowat, foreman; Hugh Hutchinson, A. G. McCrimmon, Thomas McCall, L. S. Bush and J. McDonald.

Vanden, it is believed, leaves a wife and child in Belgium and a brother at Banfield. He had been endeavoring to save enough money to bring his family to Victoria. So far the police have not located the place at which he lodged during his stay in the city, but it is believed that when his effects are secured further information of his relatives will be secured.

Splendid Number—The annual number of The Western Lumberman, of which Mr. J. V. McNaulty is editor and assistant manager, is particularly interesting, containing a review of the lumber situation for the past year and also a forecast of the future prospects of the trade. It also contains several articles on various phases of the trade, which should prove of great interest to lumbermen throughout the Province. The number is very well got up and profusely illustrated.

Yukon Rates Cut—Extensive cuts in the passenger rates on the Yukon River, to meet the reductions by other companies, are announced by the White Pass and Yukon route. The through fare from Dawson to Fairbanks, both up and down stream, is cut to $60. It was formerly $115. Between White Horse and Dawson the new stream rate is $20, a reduction of $10. A slash of $20 on the fare between Dawson and Fairbanks is announced, the new rate being $45. Up stream, the following rate will come into effect: Fairbanks to Dawson, up stream, cut from $75 to $50; Dawson to White Horse, from $50 to 30. It will be noted that the largest cuts are between Dawson and White Horse, where the rate war has been the most keen.

OGDEN POINT PIERS

The announcement that tenders will be invited immediately for the construction of the two large piers to be built in conjunction with the Ogden Point breakwater shows that the Government is anxious to advance the Victoria harbor improvements with the minimum of delay. The piers are to cost $2,000,000. One of them is to be 1,000 feet in length and the other 870. They will provide berthing accommodation for three of the largest vessels that ply on the Pacific, or, for that matter, for liners as large as any that are engaged in the traffic of the Atlantic. We understand also that they will be equipped with all modern cargo handling facilities, that their construction will be carried on simultaneously with that of the breakwater, and that they will probably be completed in a little over two years' time. This will mean that when the Panama Canal is open to traffic, and in full working order, that the port of Victoria will be well equipped to look after the increasing trade.

It is a matter of very great congratulation to the citizens that at a time fraught with such significance to our development there should be a Government in power at Ottawa that realizes to the full our needs, and is anxious to make Victoria a great national port. We believe that the broad-sighted vision of the Federal authorities will be amply repaid by the growth of trade on this seaboard. In the recognition that he has extended not only to Victoria, but to all Western Canada, Mr. R. L. Borden has shown statesmanship of a high order, and in all his actions he has signalized his desire to do what is for the greatest good of the greatest number, and not what political exigencies may dictate. The harbor works here come under the direct administration of Mr. Robert Rogers, and it is pleasing to record that to him is due the credit of elaborating the plans which provide for additional piers. Throughout he has shown himself thoroughly imbued with that optimism that believes in the great destiny of the West. Victoria has found in him a staunch friend, who is willing to do everything in his power to advance her interests. During the present Summer we will be visited by a number of Ministers engaged on the task of inquiring into the needs of their several departments. The presence here within a few days of Mr. J. D. Hazen will afford him an opportunity of seeing for himself the advantages of this port, for to some extent the work of his department is related to that of port improvement, and, as in the past, we doubt not that, so far as he can, he will continue to use his influence for our development.

In dealing with the new piers upon which work will so shortly be commenced, we cannot too highly commend the wisdom of Mr. Borden's Government in having entrusted the work for harbor improvements to a firm of the world-wide repute of Sir John Jackson, Limited. The manner in which the Ogden Point breakwater has been taken in hand, and the rate of progression on this work, carried on so unostentatiously, show very clearly that it is in the hands of an organization whose reputation has been made. The very fact of having this company engaged on such extensive works here is in itself an advertisement for the port, and one that should have very profitable results. Moreover, it is certain that the harbor improvements, when completed, will be the result of painstaking effort and long experience, so that we can rest assured they will be all they should be in the matter of efficiency.

The commencement of operations in building the two new piers will provide employment for a large number of men, a factor that in itself is of very great interest. Port improvements are following each other rapidly during the present year. It will be only a short time now before work is begun on the retaining wall along the foreshore of the former Songhees Indian Reserve, and the reclamation of an added water-front area that will mean much for the development of the Inner Harbor. In every way there is ample justification for the belief that the security of our future as a great port has been very considerably insured within the past two years.

AN INTERNATIONAL RAILWAY.

On two or three occasions since the beginning of the present year Sir Richard McBride has spoken of his wish to see the Governments of Canada and the United States unite in the construction of a line of railway that will extend the Canadian system through the northern portion of British Columbia and the Yukon Territory, and crossing the 141st Meridian, which forms the eastern boundary of Alaska, connect with the system of roads now built or in course of construction in that great territory. It is obvious that the great north country can never be adequately developed except after the construction of a great trunk line of communication, from which laterals can be built in whatever direction the resources of the vast region require. The proposed railway would perhaps be 1,500 miles in length. It would not be very costly, for the configuration of the country to be traversed lends itself to railway construction. While the actual route to be selected must for the present be, of necessity, an open question, we are of the opinion that the railway will connect with the existing continental system somewhere in the Peace River Valley. There are certain reasons why this may be the case, into which we shall not enter at the present time.

It is Sir Richard's idea that this project shall not be undertaken by the Government of British Columbia, but that it shall be handled by a commission to be appointed by Ottawa and Washington, and be financed by a joint arrangement between the two Governments. In this respect it will be something in the nature of a new departure and one which Sir Richard has said he hopes will have a tendency to unite the two countries concerned in bonds of closer friendship. We understand that President Wilson, Mr. Franklin K. Lane, a member of the President's Cabinet, and Governor Strong, of Alaska, have already had the matter brought under their attention and that Sir Richard is hopeful of receiving their very hearty co-operation.

The proposed railway would be one of very great importance. The late George M. Dawson, one of the most distinguished authorities on such subjects, expressed, as the result of his investigations, the opinion that the part of British Columbia and the Yukon which the line would open for settlement is capable of supporting an agricultural population of a million people. Its mineral resources are apparently very great. As to Alaska, it is destined to become a very important portion of the United States, supporting hundreds of thousands of people by farming and mining. The project is a very attractive one, but no more so than its potentialities justify. Sir Richard has exhibited his well-known statesmanlike grasp of the needs of the Pacific Northwest by bringing this proposal forward at the present time.

THAT SUPPRESSED REPORT.

The Mayor sends us the following letter:

Victoria, B. C., July 18, 1913.

The Editor,
The Daily Colonist,
Victoria.

Sir,—You want to know whether the Mayor intends making public the letter of June 11th, 1913.

No! The Mayor has a higher sense of honor and responsibility than has, apparently, a newspaper that prints or the party who gives to a paper matter of correspondence, between the City's Fiscal Agents and the city, of a confidential character.

In any event you are wholly at sea again in your inferences. As I have already informed you, no such communication as referred to in the confidential letter of June 11th, 1913, came to the Mayor, or, as far as I can find out, to the Corporation of the City of Victoria, between the time of the appointment of the Fiscal Agents in December, and the coming into office of the Mayor and Council of 1912.

The word "you" in the advice you quote refers to letters in the early part of 1912. The word "you" meaning no particular Mayor but signifying the Corporation of the City of Victoria.

If you still doubt my word, kindly get in touch with Mr. Steele, the agent of the Dominion Securities, who is responsible for all the correspondence between his company and the city, and who can be found at the Empress Hotel, and I am quite willing to leave it to him to verify my statements.

Yours truly,
A. J. MORLEY,
Mayor.

We give a resume of the case as it stands:

The Fiscal Agents of the city say they told Mayor Morley very shortly after they were appointed that "a period of tight money was approaching and that work should be cut down as much as possible."

Mayor Morley "absolutely disregarded" this advice, and went out of office leaving his successors to grapple with a situation created by his policy and without placing on record, orally or otherwise, any statement that he had been so advised by the city's Fiscal Agents.

The Colonist has made no charge against Mayor Morley. It is the city's Fiscal Agents, the Dominion Securities Company, Ltd., that have made it, and a very serious charge it is. The Fiscal Agents say they gave certain advice to Mayor Morley, which he utterly disregarded. If they did not so advise him, then the Mayor has a just ground of complaint against them for having stated that they did. Their letter to him is either true or false, but we must leave that issue to be settled between him and them.

Mr. Morley cannot escape his responsibility in the premises by seeking to make it appear that in a letter written to him by the Fiscal Agents the word "you" refers to some one else than himself. We are unable to believe that the Fiscal Agents know so little about writing a letter that they would express themselves with such absolute clumsiness.

The word "you" does not, as Mayor Morley pretends, refer to statements contained in a written communication, for the Fiscal Agents say that, after having advised him, they repeated the advice by letter. The absolute and unquestionable inference is that the advice in the first instance was oral, and to Mr. Morley himself. We quote again the language of the letter, that every reader may see for himself that we have stated the case fairly:

"In the capacity of Fiscal Agents, one of our first duties to you, and an unpleasant one, was to advise you that a period of tight money was approaching, and that work should be cut down as much as possible. This advice was repeated several times by letter more than a year ago, but was utterly disregarded."

This quotation is from a letter addressed, not to the Mayor of Victoria, or to the Mayor and Council of Victoria, or to anyone else than "A. J. Morley, Esq., Mayor of Corporation." We doubt if there is any other person in the world, than Mayor Morley, who would have the effrontery to say that "you," in this quotation, referred to some one else than himself.

The Mayor, after professing to believe that this advice was given in a letter, says he cannot find that any such communication came to the Corporation of Victoria between the time the contract was made with the Fiscal Agents and when he went out of office. This is a mere subterfuge of the most transparent character. It is a reflection upon the intelligence of the Fiscal Agents, and assumes that they do not know the meaning of the language they employ. He is careful not to deny that the Fiscal Agents advised him, as they say they did, although he would probably do so, if he dared.

We are obliged to the Mayor for his permission to consult Mr. Steele, of the Dominion Securities Company, Limited, but we do not require his permission before consulting any person whom we deem it to be in the public interest that we should consult.

In respect to the publication of confidential communications, advice given by the Fiscal Agents of the city to the Mayor, and utterly disregarded by him, cannot be made confidential by the agreement of the parties thereto. Such advice is of great public importance, and it is the bounden duty of any newspaper to make it known. The next thing we shall be told is that if some one detects a captain in the act of scuttling a ship, he shall regard it as confidential and forbear mentioning it to the passengers. Mayor Morley was jeopardizing the financial condition of Victoria in 1911, and doing it knowingly, and now he wants the public to support him in treating that knowledge as confidential.

We repeat that we made no charge against Mayor Morley. The Fiscal Agents made the charge on June 11, 1913. If it is not based upon facts, that is a question between Mayor Morley and the Fiscal Agents, with which we, at present, have nothing to do. This is the charge made against Mayor Morley by the Fiscal Agents. That he, by utterly disregarding their advice, made it necessary for them "to seek to provide a large quantity of money when it is hard to obtain." The irresistible inference is that if the advice of the Fiscal Agents had been taken by Mayor Morley, no financial embarrassment would have arisen.

COAL MINING TROUBLES

As we understand it, the dispute between the operators and miners at the Nanaimo and Cumberland collieries does not involve wages, working hours or the conditions under which the men are employed. It is simply a question of the recognition of an organization known as the United Mine Workers of America. The operators refuse to extend this recognition, taking the stand that Canadians in their own country should establish their own laws and not be bound by, or dictated to, by a foreign organization. It was the officers of the United Mine Workers of America who advised the Vancouver Island miners to take a holiday until the organization, which has its headquarters in the United States, should obtain recognition from the operators as the labor union that controlled the destinies of the men working at Nanaimo and Cumberland. This the operators have consistently refused to do. It is interesting to notice that their stand is being supported by a large body of miners, for we learn that today the output at the Cumberland mines is very nearly as great as it was before the trouble commenced.

The attempt to hold Sir Richard McBride in any way responsible for not intervening between the operators and miners is altogether unwarranted. The very nature of the trouble would in itself preclude any possibility of interference on the part of the Provincial authorities. As Minister of Mines the Premier is not delegated with any authority to interfere in the differences between employers and employees. Nor does it strike us that in the present instance such a thing as arbitration by the Dominion authorities would be justified. There is nothing to arbitrate, and as matters stand, the situation has already gone a long way towards righting itself.

POLICE HEADQUARTERS

There was really no necessity for Mayor Morley to explain his attitude on the question of new headquarters for the police. The position he has taken throughout has been one that is known to everybody who takes the slightest interest in municipal affairs. He is opposed to the expenditure of the moneys voted by the people for a specific purpose. That is the point at issue, not the question of a "complete system of public buildings," and the desirability of the inclusion in this scheme of a police headquarters. If he were at all disposed to approach the question in a fair-minded manner he would have had no hesitation in alluding to the fact that on a couple of occasions he vetoed the expenditure of the money after the City Council had decided to go ahead and carry out the wishes of the ratepayers. Instead of alluding to this autocratic action on his own part he says the Council "was faced with the necessity of considering a complete system of public buildings and the question of their location." We rather like the expression "was faced," considering the suggestion was advanced by Mayor Morley himself, the proposals never advanced beyond the half-hatched stage, the Council only took a languid interest in them and the public very little interest at all, if we are to judge by the vote on the referendum submitted at the 1912 municipal election.

It would be a sheer waste of time to follow the Mayor through all the devious windings of an argument designed to becloud the real question at issue. The Colonist has stated time and again the urgent necessity of the provision of new headquarters for the police quite independent of, and removed from, any civic centre plan that may be evolved at some future date. The question of a complete system of public buildings is not at issue, nor will it be for some time to come. But the need for some new police quarters is a pressing one. Mayor Morley says the ratepayers exercise no compulsory mandate upon the Council when they authorize an expenditure. Perhaps not, but the Council surely has some sort of a compulsory mandate to safeguard the public health. If they have, then we again venture to draw attention to the crying need of a new police court to replace the unhealthy quarters now used, of a new jail that will at least have the merit of being sanitary and of accommodation for the police themselves that will enable them to have the common necessaries with which such important public servants should be provided. By all means let temporary improvements be effected in the present quarters, but at the same time let work be started on the new structure, which cannot be completed too soon to meet the wishes of the people.

No. 1, Vol. 1, of The Daily Telegraph and Daily Witness, Montreal's new paper, is at hand. There is more than mere local interest attaching to the appearance of this newcomer into journalism of Canada for it signalizes the exit from the arena of the Dougal family. A good many years have rolled away since John Dougal, of Paisley, Scotland, came to Montreal and started The Witness, to the management of which Mr. John Redpath Dougal, his son, succeeded in 1870. Perhaps no newspaper man was ever more courageous or fought a fight against more serious odds than Mr. Dougal the younger, who after a gallant struggle has retired from a field in which he won a name for integrity and fairness that anyone might envy.

The suggestion made by a member of the British House of Commons that communications passing between the Government of Canada and that of the United Kingdom in regard to the Canadian wireless agreement ought not to be treated as confidential, and that such a contract may form a subject of discussion in the British House is of a very reactionary character. What the Canadian Government does in respect to matters of local concern cannot be discussed in any other parliamentary body in the Empire without creating friction that may lead to mischief. Discussion implies the right to pass a resolution either condemning or approving of the Canadian plan. Probably Mr. Touche, who brought the matter up, had nothing of this kind in mind, but Postmaster-General Samuel was wholly in the right in treating correspondence from Postmaster-General Pelletier as confidential and not to be laid before the British House without Mr. Pelletier's consent.

—Not Only Do We Supply You With—

Reliable Furniture at Reasonable Prices

But Render Service That You Will Appreciate

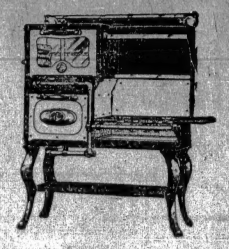

All the Heat You Want for Cooking—But Your Kitchen Cool

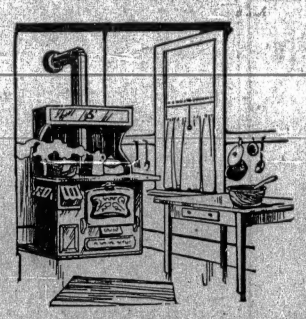

That's what is wanted this hot weather, and is precisely what you may have if you cook and bake with a "Weiler" gas range.

A variety of models—to meet all requirements—are here. They possess many important features—not found in any other range—that make them more than ordinarily economical, reliable and desirable.

The sanitary, white enameled, removable oven plates are a fine feature, but there's lots of other interesting details to show to you.

May we demonstrate their worth to you today?

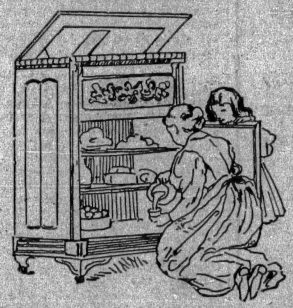

If You Can't Use Gas, Instal the Best Coal and Wood Range

It has been constructed specially to our orders. That's why the firebox, draught and flue provisions are exactly right for burning the soft coal and pitchy wood used in this district.

This one feature is sufficient to give the "Weiler Steel Ranges" a distinct lead over the average steel range built to meet fuel conditions in general. However, there are many other features that mean better cooking, less fuel, less ash trouble, and a big reduction in time and trouble to keep it clean.

Ranges large and small now in stock. Will you please call in and inspect them?

Quality Counts in a Refrigerator

Quality is the first essential in any piece of furniture, but with a refrigerator it is of the uttermost importance.

On the fourth floor we have models ranging from $12.00 to $70.00, according to size and finish. We have absolute confidence in every one of them. Let us deliver one for you today.

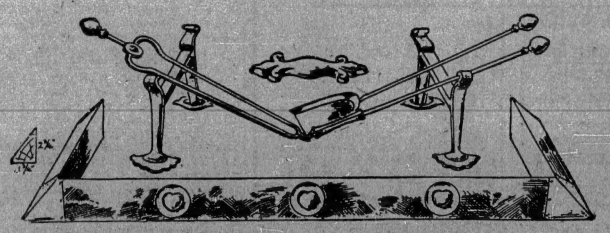

We Make Homes Beautiful.

Make them comfortable and convenient without going to a greater expense than you have planned.

In the event of your having to exceed your furnishing appropriation, we can assist you by offering such terms as will make it reasonably easy for you to have the extra comfort.

To render the best service and give sterling values are our chief aims.

Lots of Attractive Hearth Furniture Always in Stock—New Styles and Easy Prices

This 4 ft. 6 in. Set of 5 Pieces (Without Dogs) $12.50

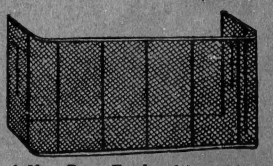

Grey Finish Price $7.00

We invite you to inspect these goods and let the quality speak for itself. We are confident that better values are not to be had, and that a visit to the department on the balcony will furnish more convincing evidence than anything we can say here.

Satin-finished brass, hammered copper, black and brass, black and copper, and various other finishes are to be had in new and artistic styles.

An Excellent Line for Wedding Gifts

A Neat Brass Fender, 14 x 45 in., at $20.00

SHAW ISLAND BANDIT STILL EVADES ARREST

Highwayman Wanted for Robbery at Union Bay Roams at Large in Wilderness on Island Refuge.

The latest information, secured by The Colonist by telephone from Shaw Island Landing at 11 o'clock last evening, indicates that not since Wednesday afternoon, shortly after 4 o'clock, has the bandit for whom a score of provincial police, United States officers and special constables have been hunting for the past eight days, been seen. That the man, one of the two wanted for the hold-up of the two bank clerks near Union Bay on the 4th inst. and the robbery of $2,800, is still on Shaw Island, whither he escaped last Friday night by boat from Oscar Island, is declared to be a certainty. Reports from settlers of his presence there are daily received, and these reports speak of his having suffered from his wounds and his shortage of food. But, on the other hand, the ability with which he keeps himself on the move about the island is indication that he is either in much better physical condition than the reports state, or he is being succored by the settlers, whose indifferent attitude towards the searching force has on more than one occasion been demonstrated.

Shaw Island is being surrounded as well as possible. There are four launches from this side of the boundary, the launches Empress and Louise from Victoria, the Winnanac from Ganges Harbor, and the Canadian Fisheries launch Paloma from New Westminster. The United States revenue cutter Arcadia is also on the spot and participating in the blockade, while a number of smaller boats are taking part in the patrol.

With the arrival of Superintendent Campbell, head of the provincial police, at Shaw Island on Thursday night more energetic measures were taken in conjunction with Sheriff Boyce, of San Juan County, who throughout the hunt has shown every disposition to assist the British Columbia authorities to the utmost. A picked body of men, fully armed, was landed on the island and distributed about among the various farms, thus affording better protection to the settlers, who, to date, have excused their apparent want of activity in assisting the police by the argument that they were afraid to do so following the warnings given by the fugitive that he would wreak vengeance upon them should they interfere with his movements. At the same time, this move will prevent any collusion between settlers and the outlaw.

During darkness the launches are using their search-lights in keeping guard along the shore of the island, and signals have been arranged so that should any of the launches from this side sight the outlaw making away from the island, the revenue cutter can be notified by search-light and take up the chase. The peculiar position in which the Canadian officials find themselves, they not being empowered to make an arrest on United States territory, makes it necessary that this work, when done, must be carried out by United States officials.

On Thursday the empty barn on Shaw Island in which evidences of the stay there of the outlaw were found, was searched. The bandit is evidently subsisting on berries and what food he can force from settlers, and while it is stated that his clothing is in tatters and he is showing the effects of his wounds, he is apparently still quite able to elude his pursuers with ease.

There is no doubt, however, from the message received last night from Shaw Island that the more aggressive measures being taken will result in the man's arrest within a few hours, provided he cannot get away from the island and make his way through the cordon so tightly drawn about it.

The extremely wild nature of the island, with the almost impenetrable cover afforded for the fugitive, makes it a very foolhardy thing for the police to attempt to track the fugitive to his lair. To do so would require a regiment of men, and would certainly result in loss of life before capture could be effected. It has been decided that the best method to pursue is to closely guard the water stretches around the island and guard the settlers' places, wearing the bandit down by cutting off his food supply and preventing him from securing treatment of his wounds.

BELLINGHAM, Wash., July 18.—The appearance of a boat two nights ago on the beach on Shaw Island, where the bank robber has been in hiding, and the fact that two men left in the boat after the one who came in it made a short trip in the woods, has led the officers to believe that the highwayman has escaped and that his partner in the robbery of the bank messengers July 4 on Vancouver Island is the one that manned the boat.

SUNDAY SCHOOL CENSUS

House-to-House Visitation Planned by Executive Committee—Arrangements for Convention

At a meeting of the Executive Committee of the Victoria district branch of the International Sunday School Association held last evening in the First Baptist Church, with the president, Dr. William Russel, in the chair, it was decided to hold a house-to-house visitation, which will practically amount to a religious census, although the real idea is to find out which children do or do not attend Sunday school. It will be held some time this Autumn, but the date has not yet been fixed. The following were appointed a committee to work out details and to interview clergy and pastors, Sunday school superintendents and the Ministerial Association, and report at the next meeting of the executive: Messrs. H. J. Knott, F. Davis, R. Smith, Noah Shakespeare, Dr. Russell and Ald. McCandless.

In connection with the annual district convention, it was decided to hold it this year in October for two afternoons and two evenings. At one of the evening meetings, Rev. I. W. Wilkinson, Provincial Sunday school secretary, who is now representing British Columbia at the World's Sunday School Convention in Zurich, will give a report, which should prove very interesting. A committee to arrange the time, place and programme of the convention was appointed, consisting of the following: Messrs. Penman, Charlton, Bailey, Andrews and King. The executive also committed itself in support of a continuance of the teacher training course for the coming Winter.

SOCKEYE SALMON RUN COMMENCES

Exceptional "Lift" Made at Otter Point Traps Yesterday —Large School Observed Off Carmanah Point.

Sockeye salmon, in numbers impossible to estimate are en route to the spawning beds of the Fraser and other British Columbia rivers. A few days ago Capt. Heater, of the Power Schooner Jessie, passed through an immense school of the fish off Carmanah Point, West Coast. Yesterday the Otter Point traps of J. H. Todd & Sons, of this city, are understood to have made an exceptionally good "lift" of 10,000. Reports from other traps are to the effect that they are filling.

This, according to statistics that so far have invariably stood the test, is the big year. Every canning plant of British Columbia and the Sound has gone to expense and pains to prepare for the expected arrival of an exceptionally large quantity of salmon. It is estimated that there has been invested in additions to plant equipment and in advances to fishermen by the canneries of the Fraser River alone as much as $1,000,000 already this year. And this outlay has been made on the assumption that there is a "Silver Horde," such as Rex Beach so graphically describes, on its way to the fresh waters of the North Pacific. For this reason the news that the fish have been seen on their usual course from somewhere in the Pacific to their usual destination is the best possible news to those who have capital invested in the industry.

Striking the southwestern portion of Vancouver Island, the fish, following their historical route, will come up the Straits past Victoria and go a short distance north, circling among the Gulf Islands. From there they go south to the Washington seaboard, where are the traps of the American canners. Here also special preparations have been made for a record pack. Those who get by these nets will follow the Mainland north again and, for the most part, enter the waters of the Fraser River forcing their way up-stream—those that don't find their way into the fishermens' nets—to the spawning beds of the smaller streams of the interior.

88th Victoria Fusiliers

Regimental orders by Lieut.-Col. J. A. Hall, commanding.

The following extract from district orders is published for information:

Resignation, 100—Provisional Lieuts. A. C. Tweedie and G. C. Reynolds are permitted to retire.

Enlistment, 101—The undermentioned men having been enlisted are brought on the strength of the regiment: A Company, No. 50, Pte. Gordon; No. 49, Pte. O'Neil. C Company, No. 138, Pte. W. Holmes; No. 140, Pte. C. Fuller; No. 141, Pte. A. Morton; No. 142, Pte. W. Pelly. F Company, No. 284, Pte. T. O'bee.

Dress, 102—The quarter will parade at an early date in the scarlet full dress and staff cap. Should occasion arise the staff cap will be worn in review order pending the afrival of the Busbie.

Recruits, 103—Recruits' parades under the Adjutant will commence in August, on the following dates at the Drill Hall at 8 p.m.: August 1, August 11, August 18, August 25. Recruits who attended the previous course of drills and are recommended by O.C. companies will be inspected on August 1. O. C. companies will render a list to the orderly room by July 31.

P. F. VILLIERS,
Capt. and Adjt.
88th Victoria Fusiliers.

COMING EVENTS

Change of Hour—The James Bay Methodist Church Sunday School will meet tomorrow at 9:45 a. m., instead of at 2:30 p. m., and will continue to do so for the next month.

Band Concert—The 5th Regiment Band will have the assistance of Miss B. Palmer, contralto, Mr. Gunson, baritone, and a saxophone quartette at their concert tomorrow evening at Stadacona Park, commencing at 8:15.

Church Picnic—The St. Columba, Strawberry Vale, Church picnic, will take place on Wednesday next, the 23rd instant. The train leaves Stewart's Crossing at 8:25 for Goldstream, returning soon after 7 in the evening. The fare will be 45 cents, children half-price.

Cadet Training Camp—Boys of the North Ward, Victoria West, Rock Bay, and South Park schools who intend going to the Cadet Camp, beginning on Monday the 21st instant, will parade at the North Ward School grounds on Saturday the 19th instant, at 10 a.m., for organization and final instructions.

Sooke Harbor Water—The Minister of Lands has now given his formal assent to the object for which the Sooke Harbor Water Company is being formed, namely, the supplying of Sooke village with water from the Sooke River, and a contract has been let to the Canadian Pipe Company, for the completion of the pipelaying by May 31, 1914. The company must have subscribed $25,000, with $10,000 paid up, before work starts, and as many Victoria people are interested in the district, this should present little difficulty. The company asks for a charter to take one cubic foot of water from the Sooke River for the supply of the village at Sooke and a portion of the Otter district.

NEWS OF THE CITY

New J. P. for Esquimalt—Mr. William John Cave, of Esquimalt, has been appointed a justice of the peace for that district.

Contract Awarded—The contract for the public building at Duncan has been awarded to Messrs. Ruirke, McDonald & Moncrieff. The work will amount to $38,463.

New Organ in St. John's—The large new pipe organ now in the course of erection for the new Church of St. John the Divine, will be opened on August 11 by the eminent and world-renowned organist, Mr. Clarence Eddy.

Local Knights Win—The Knights of Khorrassan D.O.K.K., who went to Seattle on Thursday morning eighty strong, captured first prize, $150 cash, in the fraternal parade in that city. The Royal Vizier rode a real live camel from French's.

Heat Wave—A pronounced heat wave prevails from this Province to California. The thermometer rose to 81 here, 82 in Vancouver, and 88 at Kamloops. Portland reports 92, and Southern Oregon 98. The weather in the Prairie Provinces is ideal for the growing crops.

Application Granted—On application of Mr. H. H. Shandley before Mr. Justice Murphy in Supreme Court Chambers yesterday afternoon, the liquidator of the Bankers' Trust Corporation, Ltd., may now commence action against the Title Holding Company. It is expected that proceedings will be initiated at as early a date as possible.

From Water to Water—The plan and profile of the extension of Beacon Avenue from Sidney across the Saanich Peninsula to Union Bay has been approved by the acting Minister of Railways. This crosses the B. C. E. Railway, and the applicant, Mr. L. A. Grote, must pay the cost of the railway crossing and cattle guards.

Irrigation Congress—The seventh annual session of the Western Canada Irrigation Association is to be held at Lethbridge, Alberta, August 5, 6 and 7 next, and the programme as outlined in the official call, which has just been sent out by the secretary, assures a most successful meeting and warrants a very large attendance of farmers.

Ambulance Association—In connection with the demonstration to be given during the Carnival Week by the St. John Ambulance Association, it was decided at a committee meeting held on Thursday evening, that all names of teams and persons desirous of entering should be in the hands of Dr. Donald, room 116 Pemberton Block, on or before July 25.

Adjourned Till Tuesday—Mr. W. J. Taylor, K. C., appeared in the Oak Bay police court yesterday afternoon before Mr. W. Fernie, J. P. to apply for an adjournment of the case of his client, Mr. C. S. McDonald, who is charged with manslaughter in connection with the death of Mr. T. G. Procter. The counsel's application was granted and the case adjourned until Tuesday next.

Survey Watershed—Three Government timber cruisers, headed by Mr. C. Schell, are making a survey of the timber in the Seymour Creek watershed, in which Mr. D. A. Robinson is offering Vancouver 1,000 acres for $525,000. The cruisers are taking along with them four calipers for measuring the timber. Mr. Eustace Smith of the firm of Keat & Smith, accompanies the Government men to make an estimate of the timber in the watershed for the city.

Gathering Data—Mr. Joseph G. S. Hudson, mining engineer, associated with the Department of Mines, Ottawa, has gone to Nanaimo. Mr. Hudson, it will be remembered, was sent to Nanaimo in January by his department in connection with the explosion of the SS. Oscar. His business on this, his second trip, has also to do with explosives, for he is gathering data for the new Explosives Act, which will be one of the first measures to come before the Federal House at the next session.

Mother Seeks Her Son—A pathetic letter has been received from Mrs. Lizzie Stanton, the mother of William P. Stanton, who left her some four years ago. This old lady is a cripple, and is now lying sick in the Mercy Hospital, Cedar Rapids, Iowa. She is in very distressed circumstances, and is very anxious to see her son again. She has reason to believe he is in British Columbia or Alberta. If William P. Stanton should read this paragraph, and will communicate with The Colonist, his mother's sad letter will be forwarded to him.

Successful Students—A Victoria student, Mr. Gordon Jobbins, has won distinction in attaining first-class honors in musical history, piano and written harmony, besides successfully passing the test in counterpoint, in connection with the post graduate course of the Toronto College of Music. He was under the tutorship of Mr. G. Jennings-Burnett, the organist and choirmaster of St. John's Church. Miss Lillian Watson took first-class honors in senior first piano, and Thomas Sherwood in primary piano, both being pupils of Miss Marion H. Campbell.

Lads Brought Back—Brought back from Nanaimo, whither they had gone, following their escape from the Detention Home here last Sunday, the two lads who made a valiant attempt to cross the Straits in a rowboat on Sunday morning, following a series of petty robberies, and who were arrested at Nanaimo on Wednesday evening, are once more back in the Detention Home. The boys are being well watched this time, and will be arraigned on charges of theft of articles from the Gorge, and for breaking into the store of the Burridge Mercantile Company, Victoria West.

Approves Site—Mr. B. C. Webber, assistant Dominion meteorologist, who is at present in the city, is of the opinion that a splendid site has been chosen for the observatory at Shorbolt's Hill. He says: "I think the site chosen for the observatory is the best that could be found. It is a first rate location. We must confess that the present position of the meteorological station is by no means ideal, and I think even the greatest sceptic must own that the building of a new station is a step in the right direction. Though rather far out of town, it is a great advantage to be so close to the sea."

To Welcome Maquinna—At a meeting of the Port Alberni board of trade Mayor Burde called attention to the fact that the Princess Maquinna would arrive at Port Alberni on its maiden trip, and suggested that as this event was one of great importance to that port as well as of the West Coast of Vancouver Island in general, something should be done in the way of tendering a public welcome to the officers and any of the company's officials who might make the trip. The suggestion was unanimously approved, and a committee, composed of Rand Gibbons, Alex. Sproat and H. R. Kiln, was appointed to cooperate with a committee of the city council in arranging a programme.

Asiatic Exclusion—At a meeting representative of laboring men on Wednesday evening, held in the Liberal rooms, Cormorant Street, the following resolution was passed: "Resolved, that whereas, a great number of people of the white race cannot obtain employment in this city and Province on account of the presence of alien races who have come from the continent of Asia, this meeting of the Asiatic Exclusion League calls upon Sir Richard McBride and the Government to take immediate action, and to do all in their power without further delay, to urge upon the Federal Government the absolute necessity of the total exclusion of Asiatics from this country and the maintenance of this as a white Canada."

Pioneer Honored—During the progress of the Assize Court at New Westminster on Thursday, a Royal City pioneer, Mr. W. J. Armstrong, father of Sheriff T. J. Armstrong, paid a visit to the courtroom, and was invited by Mr. Justice Morrison to take a seat by his side. Mr. Armstrong is 87 years of age, and is still remarkably active. For over an hour he listened to the evidence in the McNamara case and seemed to enjoy the tilts between counsel. Mr. Armstrong went to New Westminster to live in 1861. He was sheriff of the County of Westminster from 1884 to 1893. During that period the county extended from the international boundary line to the Alaskan boundary and from Lytton on the east to the Gulf of Georgia.

Honor for Postmaster—Some time ago Mr. Noah Shakespeare, postmaster of Victoria, received a certificate conferring upon him the distinction of honorary governor of the Canadian Bible Society for life. Mr. Shakespeare has well merited this honor, upon which his many friends will warmly congratulate him, for he has been president of the Victoria branch of the society for some nineteen years. The honorary governors were appointed at a meeting of the Canadian Bible Society held on April 17. Only seven were chosen, and of that number Mr. Shakespeare represents this Province. At the last meeting of the Provincial Auxiliary held in Vancouver on July 10, it was moved that a letter of congratulation should be forwarded Mr. Shakespeare, which was accordingly done.

Studying Trade Conditions—For the purpose of getting facts at first hand regarding the development of Canada, its trade, people, and prosperity, the directors of the Guinness Brewery of Ireland have sent their special representative, Mr. Arthur T. Shand, who is now at the Coast to visit the various parts of the Dominion and compile an exhaustive report on present-day trade conditions and make recommendations looking to the further promotion of business intercourse. The special interest shown in the progress of the Dominion by the Messrs. Guinness is a striking indication of the manner in which Canada and its possibilities are being studied by the world's trade captains and one of the most encouraging signs of Canada's growing importance and possibilities in commercial affairs.

Sons of England—Mr. A. E. Miller, of Aylmer, Ontario, supreme president, and Mr. J. W. Carter, of Toronto, supreme secretary of the Sons of England organization, are on a visit of inspection of the various lodges of the order from Winnipeg to the Pacific Coast. On the way west they visited Winnipeg, Brandon, Regina, Prince Albert, Edmonton and Calgary. At the latter place they officiate at the creation of a provincial grand lodge for Alberta, thus completing the grand council for the whole Dominion. The membership of the order, Mr. Miller stated, was now approximately 40,000 and growing rapidly. Mr. Miller has been president since last year, while Mr. Carter has been secretary for thirty-six years without a break. It is intended to visit Prince Rupert before returning east.

Information Wanted—With respect to the paving of Saanich roads, a contract for which has been awarded by the council of the municipality to the Warren Construction Company, the Provincial Government has recommended that the commencement of operations be postponed pending the securing of additional information as to the desirability of a concrete base under the bituilthic surface. The company mentioned, it is explained, were the lowest tenderers for about eighteen miles of the twenty-three miles which it is proposed to have improved. Owing to the fact that the Government is contributing $100,000 towards the project, those who oppose the carrying out of the work as arranged requested the provincial authorities to make further investigation. Since then experts have been engaged, with the result that the work will be stopped until figures have been received for concrete instead of crushed rock.

THE WEATHER

Meteorological Office, Victoria, B. C., at 8 p. m., July 18, 1913.

SYNOPSIS

The barometer remains high to the northward and fine, hot weather prevails from this to California, with moderate winds along the Coast. Fine and moderately warm weather is general from the Rockies eastward to Manitoba.

Improved Service on Victoria & Sidney Railway

Gasoline-Electric Car, Which Made First Regular Run Yesterday

GAS-ELECTRIC CAR NOW IN OPERATION

Improved Passenger Service Over the V. & S. Railway Inaugurated Yesterday—New Schedule Next Week.

Officials of the V. & S. Railway Co. are in every way satisfied with the performance of the gas-electric motor car which was placed in actual service on the run between Victoria and Sidney yesterday afternoon.

A trial trip was held on Thursday, which proved that the locomotive may be expected to do as acceptable work as the recommendations of the manufacturers, and the results it has given on other similar lines have led the management to believe. As the necessary turntables have been completed both at the terminals of this city and of Sidney, the car was pressed into service yesterday, Mr. F. Van Sant, the local manager, Mr. W. R. Dale, general agent of the Great Northern railway and other railway men interested, making the run.

Last night Mr. Van Sant stated that the car runs smoothly, and easily makes the distance within the time allowed. A little trouble, he states, has been experienced in connection with the operation of one of the turntables, but this is a minor difficulty, easily overcome, and there will be no need for returning even for a temporary period to the steam locomotives.

At about the end of next week a new schedule will be introduced providing for three passenger trains daily. Just what time will be set for departure from Victoria and arrival here is not yet known. As soon as the matter has been arranged an announcement will be made, so that the travelling public may count on being kept informed.

In connection with the V. & S. Railway improvement it is stated that the work of improving the roadbed is well underway, about fifty men being engaged at present in the vicinity of Elk Lake. It is expected that the thorough overhauling which it is planned to give the line will be completed in three months.

HAS EXPLORATION IN VIEW

Mr. McCurdy Makes Trip to Nootka Sound Country—May Find Route for Railway

Mr. A. W. McCurdy will be a passenger on the Princess Maquinna, when she sails on her maiden trip on Sunday. He will leave the steamship at Nootka, where he will make an exploratory trip into the Interior. It will be recalled by many Victorians that Mr. McCurdy two or three years ago made an excursion to that fine peak which stands so prominently out against the horizon as Nootka is approached, and exhibited lantern slides of the mountains at a meeting of the Natural History Society.

On that occasion Mr. McCurdy observed a valley, which seemed to him likely to afford a route by which a railway can be brought to Nootka, without utilising the valley of Gold River, which presents a difficult canyon, and the utilization of which for railway purposes would involve very heavy rock work along the precipitous shore of Muchalat Arm, in order to reach a point where terminals can be established.

On his present trip Mr. McCurdy proposes to explore this valley. He will take with him the necessary appliances to secure and preserve as many data bearing on this point as he is able to gather.

Mr. McCurdy is undertaking this work on his own initiative, and at his own sole expense.

Wills Probated—As a result of the usual applications before Mr. Justice Murphy in Supreme Court Chambers yesterday, probate of two wills was granted. Mr. J. H. Austin appeared in respect to that of the late Mrs. Quagliotti, while Mr. J. Stuart Yates was in attendance in connection with that of the late John Hendry. Mr. W. C. Moresby entered letters of administration of the estate of the late Thomas Moss.

Accepts Invitation—Notice has been received by the Secretary of the Canadian Club from Hon. J. D. Hazen, Minister of Marine and Fisheries, that he will be glad to be a guest of that organization at lunch while in the city. The minister, with Mrs. Hazen and party, arrives here next Wednesday or Thursday to represent the Dominion in welcoming H.M.S. New Zealand, which reaches this port on Friday. While the prospective visitor expresses his willingness to meet the members of the Canadian Club, and to address them he is unable to fix a definite date for the affair, because of the uncertainty of his engagements in connection with the vessel mentioned. However it is probable that the luncheon will be fixed for some day in the last week of the month.

NEWS OF THE CITY

School Districts—The last Gazette contains an announcement that the following school districts on the Island have been redefined: Cobble Hill, Bench, Cowichan, Malahat, and Shawnigan.

Oil for Dust Nuisance—Esquimalt Road from the city boundary westerly will be shortly treated with oil to abate the present dust nuisance. The roadway is now being swept, and the oil will be applied next week. The municipality of Esquimalt has secured the use of one of the city's sprinklers for this purpose.

Trial Postponed—Judge Lampman, of the County Court, yesterday fixed the trial of John McGregor, who is accused of the theft of $50 from Mr. R. J. Brown, for next Friday. It was expected that the hearing would take place yesterday morning, but the court granted the postponement to suit the convenience of McGregor's counsel.

Supervisors Failed to Appear—Failure of the members of the board of supervisors to put in an appearance necessitated the adjournment of the meeting called to consider a number of appeals against the rulings of the building inspector, made under the provisions of the new building by-law. The board, which is composed of City Council members, is the body to which appeals must be made. The building inspector was on hand, but the members did not put in an appearance.

Seek Missing Husbands—Mrs. Marion Ritson, of 8226 Prince Albert Street, South Vancouver, has appealed to the local police authorities for information concerning her husband, W. J. Ritson, who, until last month, was employed at the local post office and on June 30 was seen on the C. P. R. wharf evidently intending to leave the city. Mrs. Thomas Kett, of Somerville, Mass., has also sought police assistance in locating her husband, who, when last heard from, was in New Westminster but contemplated coming to Victoria.

Had Valuable Holdings—As the late Samuel J. Fox, who represented West Victoria in the Ontario Legislature from 1898 to the time of his death, being elected five times, owned valuable Hillside Avenue property here, it has been necessary to have the probate of the will granted in the Ontario courts resealed in the Supreme Court of British Columbia. An application to this effect was made before Mr. Justice Murphy yesterday, and was allowed. Mr. F. A. McDiarmid appeared for the applicants.

Labor Commission—The Labor Commission will sit at Hazelton on July 28, at Prince Rupert on the 26th, and at Ladner on the 28th of the present month.

Arrivals From England—Mr. F. W. Witham, the secretary of the Y. M. C. A., stated yesterday that during the last two or three weeks many young men have arrived in the city from England. In several cases difficulty has been experienced in finding them work, but a Yorkshireman who only arrived two days ago is already established in a job. Employers of labor can reach the Y. M. C. A. bureau of employment on the telephone.

Seeks an Injunction—The British Columbia Land and Investment Agency is seeking an injunction to prevent the British Columbia Investments, Limited, using that name because of its similarity to that of the plaintiff company. An application for the necessary order of the court was made before Mr. Justice Murphy, in chambers, yesterday, but as counsel interested is engaged in connection with the sealing inquiry, it was stood over until next Friday. Hon A. E. McPhillips, K. C., is appearing for the plaintiff company, while Mr. H. B. Robertson has been retained by the defendants.

School Trustees Will Meet Here—The annual convention of the British Columbia Association of School Trustees will be held in Victoria in October next. This will be the second time the association has met in Victoria, the first occasion being in February, 1906. A large number of the leading educationalists of the Province will be in attendance, and important educational topics will be dealt with. Trustee McIntosh, of the Victoria School Board, is this year's president of the Association. The other officers are: First vice-president, J. M. Wright, Armstrong; second vice-president, Captain W. F. Stewart, Point Grey; secretary-treasurer, Mr. J. J. Lougan, Vancouver.

Playing With Shotgun—Because he has been in the habit of practicing markmanship with a shotgun on the premises of the Australian boarding house, 2641 Douglas Street, thereby endangering the lives of neighbors, C. N. Baird was fined $10 by Magistrate Jay in the police court yesterday. Constable Smith, as a result of complaints received from people living in that locality, made investigations which led to the discovery of a perforated tin can on the property indicated. Further inquiry led to the identification of Baird as the party responsible. The latter explained that he knew nothing of the civic by-laws regarding the use of firearms, and, when pressed by the city prosecutor, further admitted that he was not experienced in the handling of a gun. The court advised him to obtain information on both points, and as a stimulant imposed a fine.

TELEPHONE LINEMAN INSTANTLY KILLED

Evan Morrall Electrocuted on Burnside Road When Wire He Was Handling Came Into Contact With Charged Line.

While engaged with a number of employees of the B. C. Telephone Company in stringing wires near the corner of Tillicum Road and Burnside Road yesterday morning at 11 o'clock, Evan Morrall, a lineman, was almost instantly killed. In spite of first-aid measures taken by his fellow workmen, the man was dead when he arrived at the police station in a motor car which was passing at the time of the accident. Word of the accident had been telephoned in to police headquarters, and Drs. G. A. B. Hall and W. Bapty were waiting when the body arrived. They could, however, do nothing more than pronounce life extinct.

Morrall was walking along the roadway with a telephone wire over his shoulder, the wire being paid out by some of his fellow workmen. The wire apparently came in contact with the trolley line of the B. C. Electric Company running along Burnside Road, the full charge entering Morrall's body. His clothing was set ablaze, and he was instantly shocked into unconsciousness. His companions, F. G. Luscombe, James Tilley, William Irving and Arthur Dakers, rushed to his assistance, and by the use of rubber gloves, were able to liberate the body from the charged wire. An effort was made to resuscitate the man, but without success, and he was placed in the motor car and rushed in to police headquarters.

Mr. Morrall, who was a single man, was about 26 years of age and well liked by his fellow workmen. He was, it is stated, an experienced lineman. Pending the holding of the inquest on Monday afternoon at 2:30 o'clock, the body is lying at the undertaking rooms of Messrs. Sands & Fulton.

OBITUARY NOTICES

DAVIDSON—The death occurred on Thursday at the Isolation Hospital of Lois Ruby Davidson, daughter of Mr. and Mrs. Charles Richard Davidson, of 2542 Fernwood Road, aged four years. The funeral took place privately yesterday afternoon from the hospital, Rev. Dr. Campbell officiating.

BENNETT—The funeral of the late Mr. Bertram Bennett took place yesterday afternoon from the family residence, 1643 Denman Street, to St. Barnabas' Church, where service was conducted by Rev. E. G. Miller. The pallbearers were Messrs. A. J. Skilton, T. R. Mudge, H. Boilard, F. Beaumont, W. Gaskill and E. Miller.

MOORE—Mr. William Henry Moore, of 480 Superior Street, passed away on Thursday evening at the Jubilee Hospital, after a long illness. He was 53 years old and a native of Ontario, being a retired farmer. He came to Victoria to reside three and a half years ago. He is survived by a wife, four sons and three daughters, all of this city, and one son in Edmonton.

CHAN HOO—Chan Hoo, aged 39 years, and a native of Canton, died in the Chinese Hospital on Thursday evening. He had lived here for three years, was a married man, and a laborer by occupation.

STEWART—The funeral of Mr. Charles Stewart took place yesterday afternoon from the B. C. Funeral Parlors, Reverend Gilbert Cook officiating. The lodge service of the Fraternal Order of Eagles, of which the deceased was a member, was conducted by Bro. J. L. Hackett (President) Aerie No. 12, assisted by Chaplain J. M. Hughes. A delegation from the order attended the obsequies.

WATERHOUSE—Mrs. Sarah Jane Waterhouse, wife of Mr. John Douglas Waterhouse, 2760 Shelbourne Street, died yesterday afternoon at the Victoria Private Hospital, where she had been for the past three weeks. She was 29 years old and a native of Manchester, England, having come to Victoria two years ago. Besides her husband she leaves a two weeks' old child.

McHUGH—The funeral of the late Mrs. Jane McHugh, formerly of South Saanich, took place yesterday morning from the Victoria Undertaking Parlors to St. Andrew's Cathedral, where Requiem Mass was said by Rev. Father Silver. Rev. Father Leterme officiated at the graveside. The pallbearers were Messrs. J. G. McKie, C. Farrall, C. Reay, F. R. Land, George Miller and R. Matthieson.

IN MEMORIUM

In ever loving memory of our darling Joey, who fell asleep in Jesus, July 19, 1911, aged 2 years 2 months.

God has gathered in our darling,
Placed our bud among His flowers,
Taken back the child He lent us,
To a better home than ours.

Adieu sweet flower, nipp'd in the bud
No sin or sorrow knew,
Came but to win thy parents' love
And then to Heaven withdraw.

It Wont Wear Away

"I'd buy a Columbia," said a recent visitor to our showrooms, after listening to several selections on the Columbia Graphophone, "but I'm afraid that I'd become tired of it after a while."

Reader, you NEVER become tired of good music properly rendered, unless your appreciation of good music is wholly artificial and ephemeral. Of course, if you only PRETEND that you like music you WILL become tired of the Columbia, just as you would become tired of Caruso, or Clara Butt or Blanche Ring or Harry Lauder. You must judge of that for yourself.

But, if you have a longing for the old songs, the new songs, the popular songs, the standard songs, the classic songs—or instrumental selections—by the best artists the world knows,

Take the Columbia to Camp

You can buy a Columbia at the price that suits you best—always on the very easiest terms. Come in and choose the style you want from the innumerable styles and sizes of this famous instrument we are now showing in our specially constructed demonstration rooms. Hear it play the well-known Columbia Double-Disc Records. Then, if you decide on an instrument, pay us a few dollars down and the instrument will be delivered where you indicate. You can clear off the balance at the rate of a few dollars a month.

We will always meet you more than half way; we will treat you right and make it as easy for you as possible; we will make it our business to see that you are absolutely satisfied.

Rheumatism

Is caused by an excess of uric acid in the blood, and is due to a deranged condition of the digestive organs, and a failure of the kidneys to carry off the waste matter after the process of digestion; then on the least exposure to cold or dampness, rheumatic pains are felt in various parts of the body.

Warner's Safe Rheumatic Cure is the best known means of driving the excess uric acid out of the blood, and restoring to a normal condition, the organs which caused its accumulation in the system.

"Screamed From Pain"

"I have great faith in the Warner Remedies. I was in bed for twelve weeks with inflamatory rheumatism. I screamed from the pain. My doctor told me to order your book. I took five bottles and was cured."—Mrs. J. Overlander, Warren, O.

If You Saw a Gold Coin Alone on the Street and Crying for an Owner, You'd Adopt It, Wouldn't You?

There are not many of that kind found. Usually it isn't very difficult to find the owner, but there are pockets full of gold coin for you in what we are offering every day. Remember, now is the time to buy in Victoria, for the city, in common with all Western Canada, is only taking breath preparatory to a greater spurt than ever.

In Women's Realm

Lady Hardinge

The Deserted Inn

It stands all alone like a goblin gray,
The old-fashioned inn of a pioneer day,
In a land so forlorn and forgotten, it seems
Like a wraith of the past riding into our dreams;
Its glories have vanished, and only the ghost
Of a signboard now creaks on its desolate post,
Recalling a time when all hearts were akin
As they rested a night in that welcoming inn.

* * * * * * *

The wind whistles shrill through the wide-open doors,
And lizards keep house on the moldering floors;
The kitchen is cold, and the hall is as still
As the heart of the hostess, out there on the hill;
The fireplace that roared in the long Winter night,
When the wind circled round, and the laughter was light,
Is a mass of grey stones; and the garret-rats play
Hide-and-seek on the stairs in the glare of the day.

No longer the host hobbles down from his rest
In the porch's cool shadow, to welcome his guest
With a smile of delight, and a grasp of the hand,
And a glance of the eye that no heart could withstand.
When the long rains of Autumn set in from the West
The mirth of the landlord was broadest and best,
And the stranger who paused, over night, never knew
If the clock on the mantel struck ten or struck two.

Oh, the songs they would sing, and the tales they would spin,
As they lounged in the light of the old country inn.
But a day came at last when the stage brought no load
To the gate, as it rolled up the long, dusty road.
And lo! at the sunrise a shrill whistle blew
O'er the hills, and the old yielded place to the new—
And a merciless age with its discord and din
Made wreck, as it passed, of the pioneer inn

—James Newton Matthews.

Memorial to Lady Hardinge

The following article from The Graphic shows how highly the women of India esteem Lady Hardinge:

"The history of British rule in India abounds in records of personal heroism, but it contains no examples of courage, fortitude, and devotion to duty in a time of sudden, unexpected peril more striking than were shown by both Lord and Lady Hardinge when the bomb of the would-be assassin struck His Excellency on December 23, as he was making his state entry into the new Indian capital of Delhi. The story was simply told in a memorable letter of the Vicereine to Lady Sydenham, who organized the memorial to Her Excellency from the women of India, which was taken up with such extraordinary enthusiasm. Western readers can scarcely realize the unparalleled effect of the movement in bringing together the women of that land of female seclusion, of caste and of manifold creeds and races. Meetings of women representing all communities were held, not only in the large towns, but also in small up-country places in every part of the country; and considerably more than 3,000,000 of them subscribed to the memorial. This bringing together of Indian women for a worthy object has established a precedent of the highest value.

"The presentation consists, firstly, of an illuminated address, designed in Star of India Blue, gold and white, with appropriate symbols. The four medallions painted on it represent scenes from Delhi, viz., Their Excellencies in the procession, the Indian Princes thereat; the Kutab Minar and the Chandni Chauk. An elephant's tusk, measuring 36in. and weighing 22lb.—a contribution from the women of Burma—forms a casket, the address being inserted in the butt end of the tusk, over which a gold cap has been fitted. In the centre of the tusk is inserted a gold coronet and shield with an inscription. On the top of the gold cap is an appropriate quotation from the Koran. A white vellum book, with a design and lettering tooled in gold, gives details respecting the many meetings held throughout India, and lists of the provincial and local committees. A red lacquer Chinese box, 300 years old, which contains the volume, is almost unique. A cloth of gold cover to encase the book is embroidered with a coronet and monogram, and is closed by a turquoise 'lucky' stone pendant, which was presented by the Begum of Bhopal. The subscriptions were made individually small, of set purpose, but nearly a lakh or rupees was subscriped, and, after paying all expenses, over Rs.93,000 remained, and were sent to Lady Hardinge for any charity dealing with women. It may be mentioned that the signatures immediately below the address are those of the wives of the heads of the various Indian Provinces. In her letter of thanks to Lady Sydenham, Lady Hardinge says that the assurance of the friendship and sympathy of her sex in India typified by the gift is 'unspeakably precious, as also the fact that the common band of womanhood which binds us together is now stronger than ever.'"

All Kinds Baby Cars. 751 Fort Street.

Teaching Literature

The following, taken from The Christian Science Monitor, expresses what many people are feeling in a vague way. The number of pupils who continue to read good books after they leave school is not as large as it would be if the present method of teaching literature repaid the labor of teacher and pupil. The editor says:

"From the report of the Carnegie foundation for the advancement of education it seems clear that the analyzing by children of delicate poems and stirring tragedies in class is not a satisfactory method of communicating a love of good literature. Memorizing the peculiarities of diction and thought of a writer is said to be a fairly sure way to spoil the taste for good reading. Disciplinary training in the reading and writing of English may in the future be kept separate from the pleasure which a youth should enjoy in the reading of a good book. A casual reader who takes up Burke's great oration would be thrilled by it, but the school boy who comes up for college entrance examinations must remmeber in connection with it a large number of obsolete details. As a result, he remembers little else. Teachers are asserting that it is better on the whole to seek to cultivate in the high school boy a taste for such literature as he can be led to read naturally, rather than to force upon him books beyond his understanding, or to seek to cultivate the taste by a method of literary anatomy."

Thought for Today

When love translates itself into action that action will always be unselfish. A selfish love for others is a contradiction in terms; it does not exist; for where true love is, there is always self-effacement. "Sacrifice is simply love in action—the universal and spontaneous language of the sentiment in its intensity."

Summer Fete.

Mrs. Bridges, in behalf of the Third Order of St. Francis, wishes most heartily to thank all those (including the accompanists, Mr. McKenzie, Mr. Mann and Mr. Davis), who so very kindly helped to make the concert Tuesday and Wednesday nights such a great success.

NEWS OF THE CITY

Salt Spring Pioneer Dead—Well-known and highly esteemed old-time resident of Salt Spring Island passed away on July 4, at Beaver Point, in the person of Mr. Henry Ruckle, aged 79 years. The deceased, who was born in Ireland, accompanied his parents to Brant County, Ontario, many years ago. As a young man he came to British Columbia by way of the Panama Canal, and for the past forty years had resided on Salt Spring Island, where his farms, flocks and herds were well known. He is survived by a wife, two sons, a daughter and two grandsons, all of whom are living on the old homestead, and a host of friends. He was interred at Fulford Harbor.

West End W.C.T.U.—The West End Women's Christian Temperance Union held its regular monthly meeting at the home of Mrs. A. J. McKenzie, 566 McPherson Avenue, on the afternoon of Thursday, July 17. Mrs. Armstrong, the delegate to the Provincial Convention in New Westminster, submitted a carefully prepared and interesting report on the proceedings of that body. The Sabbath Observance Department stated that the hitherto high standard held on the Sabbath by the authorities of the Gorge Park was not now being maintained, and an effort is to be made towards having some of the more active features of daily amusement modified on Sundays.

Cadets' Camp—Captain L. S. Yuill, who has been appointed acting major, has issued the following orders: Cadets attending camp at Sidney will parade at the High School in uniform at 11:30 a. m., Monday, July 21, under Acting-Major L. S. Yuill, Lieut. M. Henderson and Lieut. N. Lyons. Each Cadet must provide himself with knife, fork, spoon, dishes, towel, etc. Uniforms and equipment must be well cleaned. Transportation will be provided for baggage from the High School to the V. & S. Depot. All provisions, blankets, tents and transportation are provided by the Government. The High School Cadet Band will parade at the High School at 13:15 sharp, to march down to the depot.

Goods Were Mixed—After hearing the evidence of the case in which Mr. Herbert Hemming, of Tod Creek, is the defendant, Magistrate Jay announced yesterday that he would reserve his judgment until Tuesday. From the testimony it was shown that there had been a mix-up in goods shipped from Calgary by Miss Day, of Victoria, and Mr. Hemming, at about the same time. The result was that the latter got a box which had in it some of Miss Day's property. The latter received a quantity of machinery, it was alleged, belonging to the accused. Mr. Hemming explained that, owing to illness in his family, he had not opened the box he got for some time after its arrival. When he did so, so much time had elapsed that he considered the matter of no importance. The charge was altered, and the Magistrate announced that it appeared as though the case was one for a fine.

ALL-ROUND STAR PLANS TO COME

Jack Morris, of Olympic Club, Will Probably Compete Here —Looked Upon as Comer— Canadian Championships.

Word has been received from San Francisco to the effect that unless something unforeseen happens Jack ("Jumbo") Morris, an all-round athlete of exceptional promise, will be among the California galaxy of stars entered in the Carnival Week meet. Morris will enter the hurdles if he comes north, besides several of the field events, and will possibly take a crack at the 100-yard dash.

In Morris Victorians will see the athlete whom California experts look upon as the coming champion of the world. Morris recently competed against that versatile celebrity, Fred Thomson, who not long ago bettered Jim Thorpe's record and although Morris was beaten, his performance was so clean-cut and finished and he romped through the various events with so little apparent exertion that the critics were unanimous in pronouncing him a comer possessed of marvelous natural ability, who with more experience might outdo the mightiest achievements of Thomson or Thorpe.

Discussing Morris' performance a San Francisco paper says:

"For a man to go through a strenuous all round competition of ten events and not feel any tiredness or ill effects is something remarkable in itself. There was only one man who went through the all round championship at Los Angeles last Saturday, and came out at the finish feeling as good at the wind-up as when he started. This man was not Thomson, but Morris, of the Olympic Club. Thomson complained of a little tiredness and stiffness, but with Morris there were no ill effects of the hard grind of nearly four hours.

"Thomson's score was 1,329 points more than Morris', but the contest was one wherein the tried and experienced "all around contestant" was competing against the novice. Thomson is an old hand at the all around game, last week's victory making this his third success. On the other hand, Morris had never known of the competition except by name. There were events in it that he had never even tried to compete in until a day or so before the big meet."

The six or seven California athletes who are coming to Victoria for Carnival Week intend also to enter the Canadian championships at Vancouver if possible. The championships will be held on Saturday, September 6, and the programmes and entry blanks have now been issued. Victoria will send a representative number of entrants.

The programme of championship events follows: One hundred-yard dash, 220 yards run, 440 yards run, 880 yards run, 120 yards hurdles, one-mile run, 3-mile walk, running high jump, running broad jump, pole vault for height, throwing the discus, throwing 16-lb. hammer, throwing 56-lb. weight, putting 16-lb. shot, relay race one mile (four men).

TEST IS NOT FAIR IN GRAND CHALLENGE

Noted Ex-University Oarsman Protests Against Composition of Leander Crew—Unfair to Others

LONDON, July 18.—Mr. Percy Illingworth, politician and a noted ex-university oarsman, writes The Times protesting against the composition of the Leander crew at Henley.

"I am sure," he writes, "there were many rowing men at Henley who were debating the advantage or disadvantage and fairness or unfairness of the Leander Club selecting an all-England crew to compete against college and clubs' eight for the Grand Challenge.

"I presume the main object of the regatta was the promotion and encouragement of amateur rowing. The policy of accepting foreign entries having been acted upon many years, I think it would be a great mistake to reverse it. The presence of foreign crews at Henley greatly increases the general interest in the regatta, and undoubtedly stimulates the sport of rowing outside these islands.

"The point then will be at once raised, what action should the rowing authorities take when crews from abroad come to challenge our supremacy.

"I think the only fair solution is that the Leander Club should only put on crews at Henley composed so far as university oarsmen are concerned, of men who have definitely gone down, and who have not rowed in their college boats the preceding term, but selecting, as at present, an all-England crew, composed of the flower of four or five colleges, to crush individual clubs, is simply to destroy their enthusiasm and invite them to take part in a task which in nine cases out of ten, altogether is beyond their powers."

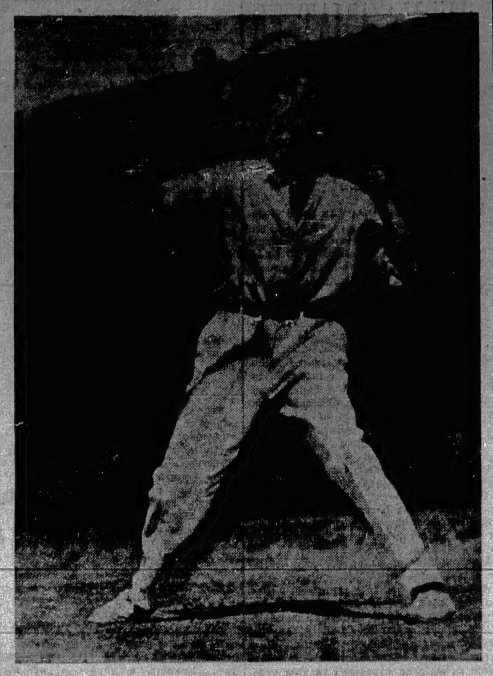

EDMONTON SENDING ATLETES TO COAST

EDMONTON, Alta., July 18.—The Edmonton Police Athletic Association will be represented at the Dominion championship meeting in Vancouver next September, by Alex. Decoteau and G. Wuttenee in the distance events, and C. Roberts in the weights. The men are foremost among the athletes in the Province of Alberta, and it is expected they will give good accounts of themselves.

The police will give their annual athletic meet here on July 28, which has been proclaimed a civic holiday. The programme will contain nineteen open events, under the sanction of the A.A.U. and open to registered athletes, and seven closed events, for members of the police department.

Tennis Star to Play in Victoria

JOE TYLER

Of Spokane, champion of the Mainland of British Columbia and the Inland Empire, who will be entered in British Columbia championships here. Tyler and Bernie Schwengers engaged in a notable struggle last year, the latter just winning out in the Northwest championship match after the former had defeated him in the Mainland contests. This year Schwengers will be absent, but the Victoria Club has hopes of being able to produce a player capable of giving Tyler a good game. The tournament opens July 28.

BEAVERS WIN IN THE NINTH

Thrilling Finish to Ball Game Yesterday—Umpire Toman Rouses Wrath of Multitude —Narveson Weakens.

Narveson, p.	2	0	1	0	1	0
Kantlehner, p.	0	0	0	0	0	0

Tigers Hit Freely

TACOMA, Wash., July 18.—Tacoma won a free hitting game today in the last half of the ninth inning, making 2 runs and winning out 8-7. The erratic umpiring which has marked the series continued today, the locals evidently being given the preference. The fielding feature of the game was Lynch's catch of Hensling's long fly, which he speared with his bare hand while falling, and after rolling over twice came to his feet with the ball still in his hand.

Score:	R.	H.	E.
Spokane	7	17	1
Tacoma	8	10	0

Batteries—Smith, Douglas and Hannah; Kaufman, Belford, Boice and Harris.

Home Run Wins Game

SEATTLE, July 18.—Portland got an early lead, but Seattle tied the score by consistent hitting, and the locals won, 5-4, when Jackson sent the ball over the fence for a home run in the fifth inning.

Score:	R.	H.	E.
Seattle	5	11	2
Portland	4	9	0

Batteries—Fullerton and Cadman; Eastley and Williams.

JONES RETIRES FROM LACROSSE

Vancouver Magnate Out of National Game Entirely— Turns Club Over to Committee of Four Players.

VANCOUVER, B. C., July 18.—Con Jones, president, owner and manager of the Vancouver Lacrosse Club, today announced his retirement from the Canadian national game. Following the resignation of the Vancouver club from the British Columbia Lacrosse Association yesterday, Mr. Jones decided to pull out altogether, and today he turned the club over to a committee of four players for the season. The player's committee, who will have absolute control, consists of Harry Pickering, "Newsy" Lalonde, Harry Godfrey and Harry Griffith. The club will play out the schedule arranged with the Vancouver Athletic Club for the city championship, and will divide the receipts pro rata, all the players receiving the same amount. Jones has been in lacrosse five seasons, this being his fifth, and he achieved the distinction of winning the Minto Cup during that time.

Practice Polo Match

On Saturday afternoon, at the Willows grounds, the Victoria Polo Club will have a match between the A. and B. teams. All playing members are asked to be on the ground at 3.30. Non-playing members are invited to attend, as the match promises to be very interesting. A. team: W. Boultbee (captain), Dr. Richards, A. H. Gunn and Alec Mackenzie. B. team: Bruce Irvine (captain), F. Wilgris, M. A. Powell and Captain Jones.

Restorer vs Men's Own

The H.M.S. Restorer team will meet the Men's Own in a cricket match at the Canteen grounds today, the match starting at 2.30. The Men's Own team: R. J. Ferris (captain), T. Ferris, A. Lea, B. Lea, R. J. C. Smith, W. Pargiter, T. Mearns, N. Armstrong, F. Norman, E. R. Lock.

Gun Club Shoot

The Victoria Gun Club will hold a shoot on Sunday at their grounds at Colwood. Several trophies are to be competed for by members of the Club, and there will also be shooting matches for non-members. Shells of all kinds can be procured at the grounds.

Cricket Match Today

The Oak Bay cricket team will play the Albions today at Beacon Hill, play commencing sharply at 2 o'clock. The Oak Bay team: A. B. Lawrence, H. Lethaby, L. A. Gurney, A. Morton, H. V. Watkins, T. Howland, C. Speak, H. L. Robinson, H. Clarke, T. Parsons.

VANCOUVER, July 18.—The return battle between Frenchie Vaise, of Renton, Wash., Canadian lightweight champion, and Joe Bayley, the former titleholder, is set for Friday night, August 1. Chet McIntyre took a run down to Renton yesterday to see Vaise and his manager and returned today satisfied that the bout will go along according to schedule.

VICTORIAN FAVORED TO WIN RIFLE MATCH

VANCOUVER, July 18.—The Vancouver match, ten shots at 600 yards, was shot off early this morning, and some good scoring was witnessed, although the conditions were none too good for those starting on the 8 o'clock squad. When the time for commencement arrived it was found that several of the competitors were absent, they putting in an appearance some considerable length of time after firing commenced. For this they were ruled out by the range officer, who had no other alternative, as the regulations instruct him to do so. The matter was referred to the match committee, and they, considering the circumstances sufficiently extenuating, decided that all the defaulters be allowed to shoot their scores at 8 o'clock tomorrow morning. This decision proved eminently satisfactory to all parties.

At the present writing it looks as though J. Thomas, of Victoria, will prove the winner of the Vancouver match, he having made 49 out of a possible 50, and it is not likely those who shoot in the morning will be able to beat him out.

After the conclusion of the Vancouver match the tie in the Victoria match was shot off between the five men who had made possible scores. As a result Sergeant H. Collings, of the R.C.G.A., Esquimalt, was declared the winner, he making 24 out of 25.

There were eleven men tied for the last eight places in the first stage of the Lieutenant-Governor's match, and in the shoot-off the following qualified to enter the second stage:

Sergt. J. Q. Gillan, Esquimalt; H. N. Odlin, V. R. A.; W. J. Ross, V. R. A.; Sidney Williams, Victoria R. A.; W. Miller, N. W. R. A.; Gr. W. E. Mitchell, Fifth C. G. A., Victoria; D. A. McIntosh, V. R. A.; S. Sergt. T. R. Whitdon, 102nd R. M. R.

The winners in the extra series at 500 yards were also announced, Captain P. M. Ferris, H. J. Ferris and Q. M. S. Gibson dividing the honor of first three places, they each having possible scores.

The scores in the Bankers' match: 1, $12, Lt. A. Brooks, 102nd Rgt., 50. 2, $10, Sgt. W. Nott, R.C.G.A., 49. 3, $7, Q.M.S. F. Kennedy, 6th Regt., 49. 4, $7, Q.M.S. H. Price, 102nd Regt., 49. 5, $5, H. Burton, Victoria R.A., 49. 14, $3, Sgt. J. Gillan, R.C.G.A., 48. 23, $2, Sgt. W. M. Fatt, 5th Regt., 48. 25, $2, Corp. E. J. Read, R.C.G.A., 48. 26, $2, Sgt.-Maj. M. Doyle, 5th Regt., 48. 34, $2, Sergt. A. G. Hawkins, 5th Regt., 47. 36, $2, E. J. Gollop, Victoria R.A., 48. 40, $2, E. J. J. Caven, 5th Regt., 47. 46, $2, Sgt.-Maj. Farley, R.C.G.A., 46. 47, $2, Sgt. First out—28, 27, 29; total 85.

Tyros Shoot Well

The Tyro aggregate was won by Mr. J. Stark, of the Vancouver Rifle Association, who has shot in splendid form throughout the meet. The shooting of the Tyros was a feature in this year's matches and several of them will figure well in the All-Comers' aggregate. The Tyro aggregate:

$5, J. Stark Vancouver R.A., 305. $4, K. C. McCallum, Victoria R.A., 304. $3, Corp. E. J. Read, R.C.G.A., 302. $2, A. F. Farley, R.C.G.A., 297. $2, Sgt. Denison, 5th C.G.A., 293. $2, Cadet R. Wallis, U.S.C.C., 291. $2, Gnr. A. G. Hawkins, 5th Rgt., 289. $1, A. J. Stevens, Victoria R.A., 287. $1, H. J. Wicks, Victoria R.A., 285. $1, H. Burton, Victoria R.A., 284.

The R.C.G.A. at Esquimalt were the winners of the Tyro team aggregate. The men of the garrison this year sent over a particularly strong Tyro team. The tyro of today is the crack shot of tomorrow and, judging from th showing made by the R.C.G.A. tyros, the garrison is a unit to be reckoned with next year.

Tyro team scores: R.C.G.A., Esquimalt, 1423. Victoria R.A., 1422. Victoria R.A., 1405. 5th C.G.A., 1370. 5th C.G.A., 1357. U.S.C.C., 1309.

Extra series at 500 yards—$3.50, Capt. P. M. Ferris, 6th Regt., 35. $3.50, H. J. Ferris, V.R.A., 25. $3.50, A. M. Gibson, 72nd Regt., 25. $1.75, R. Doherty, V.R.A., 24. $1.75, Capt. J. Sclater, 5th Regt., 24. $1.75, H. J. Vidal, N.W.R.A., 24. $1.50, Q.M.S. J. Caven, 5th Regt., 24. $1.50, J. F. Christie, V.R.A., 24. $1.50, W. H. Paddock, V.R.A., 24. Corp. P. Lamond, C.G.A., 24.

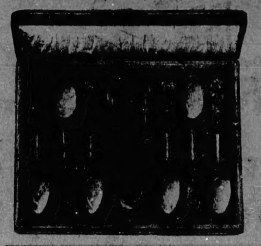

Extra series, 600 yards—$3.25, H. J. Ferris, V.R.A., 25. $3.25, M. J. Knight, N.W.R.A., 25. $3.25, Capt. W. Rae, 72nd Regt., 25. $1.60, Lieut. C. W. Sirois, 5th Regt., 24. $1.50 R.Q.M.S. J. Caven, 5th Regt., 24. $1.50, E. J. Gollop, Victoria R.A., 24.

The annual meeting will be held immediately after the shooting, after which the competitors will leave for their homes for another year.

By the use of devices [illegible] the draft of heating tubes [illegible] boilers, two German [illegible] have saved 10 per cent. of fuel without impairing their [illegible] power.

ATHLETIC CLUB TURNS AMATEUR

V. A. C. Will Hereafter Conduct Its Affairs Along Amateur Lines—Seaman Wright Outpoints Gunner Ross.

A four-bout card that was thoroughly pleasing to the spectators was put on by the V. A. C. last evening, the feature being the easy defeat of Gunner Ross by Seaman Wright. The seaman won the decision in three rounds by a wide margin.

It developed before the commencement of the affair that the Victoria Athletic Club had changed its status from professional to amateur. This was required by the authorities, who some days ago made known their intention to prevent the staging of the bouts and were only prevailed upon to rescind this decision by the assurance of the V. A. C. that in future all events would be conducted along amateur lines. Last night all contests were of three rounds duration, with a fourth round if necessary, and two judges officiated in addition to the referee. An official of the club stated that hereafter all competitors will be compelled to give affidavits of their amateur standing, but that the club would not seek the sanction of the Amateur Athletic Union for any of its entertainments.

The headliner of last night's bill saw Gunner Ross, the hard-hitting heavyweight who made a name for himself while boxing under the J. B. A. A. colors, opposed to Seaman Wright. The latter declared he was an amateur when some doubt was expressed in this connection. The milling decidedly favored the latter throughout. Ross hardly landed a blow; he tried hard for a knockout, but his opponent sidestepped neatly, ducked or blocked, making Ross look foolish at times. Wright jabbed Ross repeatedly with his left, and on several occasions backed him up against the ropes, sending in rights and lefts almost at will. His blows didn't hurt Ross much, but he piled up a big lead on points.

Ed Kruse and Roy Baker furnished a clever 105-pound bout, the latter winning the decision after an extra round. In the 115-pound contest Harry Johnson won easily from Jerry Sullivan in three rounds. It was a rather crude but fiercely contested go. "Uppercut" Hicks outpunched Moran in the 150 pound bout, the judges giving him the decision in the third round. A sweeping right swing to the head dazed Moran, and gave Hicks a well-earned victory.

H. Bennett refereed and Morris Condon and George Sidney were the judges.

Interesting Cricket

An interesting game was played at the Garrison grounds on Thursday, resulting in a win for W. A. Casey's eleven by 126 runs. G. C. Grant's innings was the feature of the game, his last fifty being scored in 15 minutes. Zeeder, Wallington and Harold Hudson hit freely, and provided the interest. Inglis bowled in good form throughout.

HOWARD IS CHARGED WITH PROFESSIONALISM

WINNIPEG, July 18.—Army Howard, the crack sprinter of Western Canada, and one of the Dominion's representatives at the last Olympic games, must face a charge of having received $25 for running at the Scottish games, and if he is unable to clear himself he will be driven from the amateur ranks. An affidavit has been laid with the Manitoba branch of the Amateur Athletic Union of Canada and, in the words of President Boyd, "It is strictly up to Howard to show that the charge is false."

BOB BURMAN BREAKS CANADIAN RECORD

VANCOUVER, B. C., July 18.—Bob Burman, the motor car racer today broke the Canadian record at Minoru Park by making a mile in 55 4-5 seconds. The previous record was made by Burman in Montreal in 59 seconds.

In the second trial the speed king lowered by three-fifths of a second his own new made record of a few hours before, completing the mile in 55 1-5 seconds.

His time by quarters was: First quarter, 15 seconds; second quarter, 27 4-5 seconds; third quarter, 42 3-5 seconds; fourth quarter, 55 1-5 seconds.

A handful of raw pig iron, weighing about five pounds, is worth five cents. From it sixty table-knife blades can be made, of a value of $15. Converted into steel watch springs, there can be about 110,300 of these tiny coils made from it. They sell for $1.75 a dozen, which would bring the neat sum of $16,070.83 for the five cents' worth of raw metal.

LETTERS TO THE EDITOR

Topographical Survey.

Sir,—Your editorial of this morning regarding the Topographical and Geological Surveys of Vancouver Island is timely. I appreciate that maps made under these surveys are expected to be of value to the settler, prospector, timber cruiser, and engineer, just as charts of the waters surrounding the Island are of value to the mariner. We may take it for granted that a large number of people interested have already made use of those maps which have already been published by the Geological Survey covering certain portions of the Island. Might it not be a good plan for you to invite correspondence with a view to obtaining opinions as to the practical assistance afforded by the use of these maps? In this way important evidence might be obtained to be used when urging upon the Government the early completion of the work.

ARTHUR W. M'CURDY.

We shall be glad to receive correspondence on this subject.—Ed. Colonist.

The Yacht Clubhouse.

Sir,—In the notice in this morning's paper re Royal Victoria Yacht Club, a statement is made that the clubhouse is to be thrown open to the public on Saturday afternoon. In order that there should be no mistake, I wish to state that the clubhouse will only be open to members of the club, and to those friends of members who have been specially invited. The dance in the evening will also only be attended by members and their invited guests.

J. MUSGRAVE,
Commander R.V.Y.C.

An Appeal

Sir,—Another case has arisen which calls for the prompt action of the generous people of our city. Mr. Bertram Bennett, a musician of some repute, who has played for some months passed at the Empress Hotel, has been suddenly called to his rest, after a brave struggle in a prolonged and serious illness.

A widow and little girl a year old are left, but unfortunately, they are unprovided for.

There is not sufficient money to pay funeral expenses; the house Mrs. Bennett lives in is on monthly instalments. Not very much has been paid, but she has the deeds and necessary papers.

Mr. Bennett had two operations within the last twelve months, and these expenses must be met.

I am hoping to obtain sufficient help to pay necessary expenses, and to hand over any balance to the widow and child.

I will gratefully acknowledge whatever may be received.

Yours faithfully,
ERNEST G. MILLER,
Rector of St. Barnabas'

P. S.—Perhaps you will kindly receive subscriptions for the fund during the next few weeks.

Swimming Contests

Sir,—Referring to the article in today's Colonist regarding the forthcoming swimming events, the ever increasing popularity of all aquatic sports must be apparent to everyone. This year will witness more swimming and boating than any previous year, and perhaps more than in any other city on the Pacific Coast. Victoria must look to her laurels, for she should, by virtue of her position as a maritime city, attain distinction and hold paramount place in aquatics. This can only be completely accomplished by the erection of suitable swimming baths, the need of which is generally admitted.

The Royal Life Saving Society's efforts are being exercised to a certain extent at the present time, but there is far greater scope for the instruction of this society's approved methods of rescue, releasing oneself from the clutch of the drowning, and resuscitation of the apparently drowned; in fact this instruction should be commonly imparted to everyone throughout the city. Permit me to refer to the recent sad case when a young lad of 18 years of age was rescued and landed alive, but no one nearby knew of resuscitation methods and the poor lad expired as a consequence.

In view of all that has been said from time to time on this vital subject, I would strongly urge all those interested to become members of the Royal Life Saving Society, whether already swimmers or not, the ordinary membership fee being only $1.00 for twelve months. This applies to both ladies and gentlemen of any age. Literature regarding the great work of "human salvage" being carried on throughout the world by this society, and comprising much useful information and instruction, is available. The formation of classes is specially urged, as honorary instructors are ready and willing to extend their sphere of usefulness right here in the city of Victoria. The benefits of this instruction would be quickly multiplied, as those instructed can very soon qualify to instruct others themselves.

The writer will be glad to hear from those interested in the prevention of unnecessary loss of life.

Wishing to express my utmost appreciation of the interest shown by many already in this humane matter and urging upon all others the desirability of interesting themselves similarly.

R. R. POMFRET,
Hon. Sec.-Treas.
The Royal Life Saving Society.
(British Columbia Chief Centre).

Rickaby Cup Race

A "self-handicapping" five-mile motor boat race will be run over the Cadboro Bay course, opposite the Royal Victoria Yacht Club house, tomorrow, for the Rickaby Cup. The race will start at 4:15 p. m. Besides the Rickaby Cup there will be three prizes given for 1st, 2nd and 3rd. As Saturday will be the day of the opening of the yacht club, it is hoped that a large attendance will be on the starting line for the race.

Too Late to Classify

Two and a Half Acres at Alta Vista, all cleared with barn and fruit trees. Price $2750; one-quarter cash, balance 1, 2 and 3 years.

150 Acres, over one million and a half feet timber. 60 acres good land, at $40 per acre.

Have several excellent houses to be exchanged for acreage.

Ancient Order of Foresters

All members of the Ancient Order of Foresters are requested to meet at the A. O. F. Hall, Broad Street, on Sunday 20th inst., at 1:30 p. m. sharp, for the purpose of attending the annual Memorial Decoration Day Service.

F. CASELTON,
Chief Ranger.
S. W. ANDREWS,
Secretary.

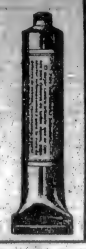

Got a Sore Throat?

"Well, sonny, there is nothing as good for a cold or sore throat as this Capsicum "Vaseline."

"Just rub that well into your chest—and swallow a teaspoonful of plain White "Vaseline." In the morning you'll feel fine—soreness all gone."

Capsicum Vaseline

TRADE MARK REGISTERED

Capsicum "Vaseline" is splendid for all pains in the chest, rheumatism, neuralgia, gouty complaints, etc. More efficient than the old mustard plaster; easier to apply, and cleaner; *will not blister the skin.* Apply externally only.

There are other "Vaseline" preparations that should be in every home—each specially made for its particular uses. Ask your druggist to show you them.

All the family will be interested in the practical home hints given in our free "Vaseline" booklet. Your copy will be mailed you on receipt of your address. Write today.

Note—Insist on "Vaseline"—made only by

WINCHESTER

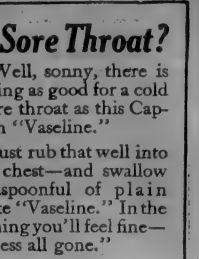

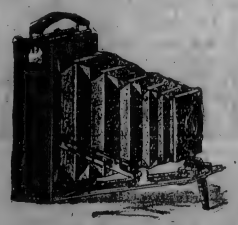

"REPEATER"

Smokeless Powder Shotgun Shells

Winchester "Repeater" shells have won first place in the estimation of hunters because they give the maximum efficiency at a minimum cost. Although comparatively low priced, "Repeater" shells are made and loaded with the same care and precision which have made Winchester "Leader" the best shells on the market. Only the highest quality of powder and shot are used in "Repeater" shells, and for any load in 10 gauge up to 3½ drams and in 12 gauge up to 3¼ drams of powder they give entire satisfaction. No shells, price considered, give better results than the Winchester "Repeater." Try them and you'll be convinced. Ask for "Repeater."

The Yellow Shell with the Patented Corrugated Head

You can get good pictures just as soon as you get a

PREMO

You need no previous experience, no technical knowledge. Step into the dealer's to-day and see for yourself, how easy Premos are to load and operate, how light and compact, and how altogether desirable.

The illustration shows the Premoette Jr. No. 1, a marvelously compact little camera which will slip into any pocket, or a lady's handbag, and costs but $5.

And then there are the Film Premos No. 1, just as simple to operate, but making larger pictures—3¼ x 4¼, $10.00; 4 x 5, $12.50; 3A (post card size), $12.50—and many other models ranging in price from $1.50 to $150.

Get the new Premo catalog describing fully all Premos as well as the Premo Film Pack and Tank Development system. Free at all dealers' or post paid to any address on request.

FINE PROGRAMME AT CONSERVATIVE OUTING

Annual Outing at Goldstream on August 2 Next Promises to Be Most Successful of Enjoyable Events.

The annual outing of the local Conservatives which has been fixed for August 2, at Goldstream, will, without doubt, be the most successful of the many enjoyable celebrations held by the party. The committees in charge of the various features are hard at work preparing for the event, and a programme, which will afford exceptional means of enjoyment, is being prepared. The list of speakers will include the Premier, Sir Richard McBride, and members of the executive and local members, as well as several outside gentlemen who have signified their intention to be present.

In the sports portion of the programme the Highland sports will be an important feature. Five prizes have been awarded for these events, in addition to numerous prizes for the other sport events. The bands of the 5th Regiment, R.G.A., the 88th Fusiliers and the Highland Pipers have been engaged for the occasion, insuring plenty of music. The "Queen's Contest," which has been a conspicuous feature of previous annual events, will again be held this year and will invite keen competition. Competitions for dancers will be held, and handsome prizes will be given. The full programme of the event will be published in a short time.

WELCOME FOR BATTLE CRUISER

Continued From Page 1

Impressive Entrance

That the entrance of H. M. S. New Zealand into this port will be made impressive is assured, providing her arrival, as is expected, takes place in the early afternoon. It is proposed to give the general public an opportunity to have a part in the ceremony, an excursion by the steamer Princess Charlotte to meet the battleship, being arranged. The ferry steamer will leave the C. P. R. Belleville docks at about 9 a.m., running down the Straits until meeting the New Zealand, and escorting her to Esquimalt.

From information received yesterday, it is confidently believed that U. S. S. California, of the American Pacific fleet, will arrive at Victoria on August 1, and will remain until August 6 in order to take part in the reception. It is quite probable, also, that the majority of the yachts and motor boats of the Royal Victoria Yacht Club will sail or puff some distance out to receive the ship, thus emphasizing the heartiness of Victoria's welcome.

On Saturday, the steamer Joan will bring an excursion from Salt Spring and other islands under the auspices of the Salt Spring Navy League Branch. The Joan will proceed to Esquimalt, where H. M. S. New Zealand will be at anchor. Then there will be several excursions from the neighboring cities while the ship is here in August. One will come from New Westminster on August 6, another from Tacoma on August 8, and others are proposed from Bellingham on August 7, 8 and 9.

Young People's Ball

In addition to the official receptions already outlined, and the various more or less formal functions, it is expected that there will be a Young People's ball, given by a popular Victoria hostess, at which midshipmen of H. M. S. New Zealand will be the guests of honor.

At a meeting of the regents of the different chapters of the Daughters of Empire, held yesterday morning, a letter explaining the arrangements for the ball of August 7, was ordered issued as follows:

Madam,—In celebration of the visit of H. M. S New Zealand, the Daughters of Empire in Victoria will hold a patriotic ball at the Empress Hotel on Thursday evening, August 7. The price of the tickets will be: Double ticket (including a lady and gentleman), $7.50; single ticket (lady or gentleman), $4. The number of tickets issued is limited to 500. The members of the I. O. D. E. will have the first privilege in securing tickets, applications for which must be made on or before Wednesday, the 23rd instant, after which date names placed on the "introduction list" by members of the Order, will receive the due consideration of the committee.

Tickets must be paid for on receipt.

The ball secretary, or her assistant, may be found at the Alexandra Club (entrance hall) from Friday, the 18th instant, daily, between the hours of 11 a.m. and 3 p.m. for the issue of tickets, the receipt of introductions, and other business in connection with the arrangements.

(Signed)

FLORA HAMILTON BURNS
Hon. Secretary for the Patriotic Ball Committee, I. O. D. E. in Victoria, B. C.

The cards of admission accompanying tickets must be presented at the door.

Just what form Victoria's hospitality in a general sense will take is not yet known, no report having been received of the committee entrusted with the preparations, of which Alderman McCandless is the chairman. However, an appropriation of $2,000 has been made for the purpose, and doubtless something worthy of the occasion will be done. It is know that the Esquimalt Municipality plans making exceptional efforts to give the visitors a good time, the reeve and councillors of that district feeling it incumbent upon them, as being the representatives of the section embracing the harbor in which the battleship will cast anchor, to make Captain Halsey, his officers, and men, feel the warmth of their welcome.

ARBITRATE WAGE DISPUTE

Railways Are Willing to Leave With Mediators Decision as to Questions to Be Considered

NEW YORK, July 18.—The Eastern railroads engaged in a wage controversy with their 80,000 men indicated tonight their willingness to leave with the board of mediation and conciliation appointed by President Wilson the decision as to questions to be submitted for arbitration under the Newlands Act. In a letter to the leaders of the trainmen, the conference committee of managers said it seemed to them that "The immediate differences of opinion relating to the points to be submitted for arbitration is a matter to be considered by the board of mediation and conciliation."

WASHINGTON, D. C., July 18.—The new federal board of mediation and conciliation will hold its first meeting here tomorrow morning at 10 o'clock, organize and prepare for immediate consideration of the controversy between the Eastern railroads and their 80,000 trainmen and conductors. The call was issued late today by Judge William L. Chambers, whose appointment as commissioner with those of the other members of the board, was sent to the Senate by President Wilson earlier today.

APOSTOLIC DELEGATE TO ARRIVE TODAY

Expected on Afternoon Boat From Vancouver—Spoke at Banquet Given by Knights of Columbus.

His Excellency Monsignor Stagni, Apostolic Delegate, is expected to reach this city this afternoon from Vancouver, accompanied by Bishop MacDonald. He will be a guest at the palace during his stay in the city.

Under the auspices of the Knights of Columbus order, of Vancouver, His Excellency was entertained at a banquet Thursday evening at the Commercial Club.

Prefacing his remarks by paying a tribute to the Knights of Columbus, Monsignor Stagni stated that he considered the honor of being entertained by the Catholics of Vancouver more as a mark of esteem, to His Holiness the Pope, than as a personal recognition. He referred to the great interest evinced by the sovereign pontiff in the work of the Church in Canada. As an instance of this acknowledgment of this country's importance the Pope had placed it on the same footing as the United States, and other lands far distant from the Holy See, by appointing a delegate to take up his abode in Canada in order to be in better touch with the constantly changing conditions here.

Canada's Spirit of Freedom

His Excellency alluded to the religious liberty accorded the people of Canada. "It is not only possible, but it is comparatively easy," he added, "to follow out the convictions and teachings of the church in this country. In this vast territory there is room for everybody. The spirit of freedom is a predominant feature of the life in this great last West. I am pleased to note that the influence of the Catholic Church has progressed in a corresponding degree to the marvellous growth and development of this Dominion."

Continuing, His Excellency expressed the hope that the sphere of the Catholic religion would be still further extended, and referred to the fact that a large proportion of the immigrants from Europe belonged to the Roman Catholic faith. He considered it imperative on the part of the church to realize the importance of this great country.

He took advantage of the occasion to congratulate the clergy and laity in British Columbia on their achievements, and urged them not to lose sight of the fact that it was necessary to inculcate the doctrines of the holy church in order to offset the materialistic and secular tendencies which were now a characteristic of modern times and modern civilization. He dwelt on the importance of attending to the spiritual side of life, and of looking forward to the life hereafter.

NEW DEMANDS ON CHINA

Russia's Action Regarding Outer Mongolia Has Caused Consternation at Peking

PEKIN, July 18.—Russia's action in presenting new demands to the Chinese Government requiring agreement of full autonomy of Outer Mongolia and declaring China to be suzerain only, and binding China to accept Russian intermediation, has caused consternation here. High officials say the Cabinet has approved the Mongolian agreement between Russia and China, signed at Urga last November, and that the Government intended to sign it. The delay in doing so, it was added, was due entirely to hostile members of the Assembly and to the amendment presented. These amendments were designed not to alter the terms of the agreement, but to prevent future misunderstanding between China and Russia.

These officials also said it had been earnestly hoped Russia would agree to a settlement of the Mongolian question owing to the Chino-Mongolian relations, which were leading to frequent horrible atrocities.

Claim Congo Property

BRUSSELS, July 18.—Princesses Louise and Stephanie, daughters of the late King Leopold, decided today to appeal to the Court of Cassation against the judgment of the Court of Appeals, which disallowed their claim to the entire Congo property left by their father, valued at $14,000,000.

IF you are building houses to rent, see the McClary agent in your locality about installing Sunshine Furnaces. If you would like to read the latest Sunshine booklet write to our nearest office

The Real Estate Agent Tells Why

"I DON'T see why this house is worth $3.00 more rent than the house across the road which is about equal in size."

"But, madam, this house is heated with a McClary's Sunshine furnace. The house across the street has just an ordinary furnace."

"In this house you are sure to be warm, cozy and comfortable. Houses heated with Sunshine Furnaces are known among real estate men as warm houses.'"

"I've a McClary's Sunshine in my own home, madam. And it's a great comfort. We don't fear zero weather any more."

"I guess that's true, Mr. Douglas. Some of my friends have that furnace and they are always praising it up to the skies."

"Well, you see, madam, the Sunshine furnace is made and guaranteed by the biggest stove and furnace makers in the Empire. You naturally expect such a furnace to be of the very highest class."

"Just come down stairs with me, madam, and I'll show you the four radiating surfaces, the semi-steel fire-pot, the dust-flue, the automatic gas damper, and the other big labor-saving and fuel-economizing features of McClary's Sunshine Furnace."

We Know Canada

Representatives of our firm have lived in every province and district of Canada. They know the people, the conditions, the prospects. Each of these men specialize upon that part of the field they know. That is the reason that the Hutcharm Service is the most comprehensible in Western Canada today. The Hutcharm Company is the only Advertising Agency West of Winnipeg, Man., recognized by the Press Associations of the World. That recognition has been gained by hard work, by ability to produce successful advertising plans and material and by proving absolute financial reliability.

Ask the Merchants Bank of Victoria, the Canadian or American Press Associations. Ask the Newspapers of Great Britain, India, China, South Africa—they know our work; they know our reliability. Self praise may be no commendation—but straightforward, indisputable, candid facts are worth something to the public.

Don't accept our word for it; let us prove the sincerity of our claim. We make no claim for "smart" advertising; we aim to make every dollar of your appropriation worth five dollars of business. Ask our clients. Let us furnish you with the finished article. Phone 3233 for details.

"NAVIGABLE WATERS PROTECTION ACT."

NOTICE IS HEREBY GIVEN that the GENOA BAY LUMBER COMPANY, LIMITED, with head office at the City of Victoria, in the Province of British Columbia, is applying to His Excellency the Governor-General of Canada in Council for approval of the area plans, site and description of works proposed to be constructed at the North East corner of Lot Three (3), part of Section Eleven (11), Range I, W. North Saanich, Province of British Columbia, according to a map or plan on file in the Land Registry Office at the said City of Victoria and there numbered 1019, and has deposited the area and site plans of the proposed works and a description thereof with the Minister of Public Works at Ottawa, and a duplicate thereof with the Registrar General of Titles in the Land Registry Office in the City of Victoria, British Columbia, and that the matter of the said application will be proceeded with at the expiration of one month from the time of the first publication of this Notice in the "Canada Gazette."

DATED this 10th day of June, A. D. 1913.

Petitioner.
GENOA BAY LUMBER COMPANY, LIMITED.

HOUSES

We have for sale 3 very pretty and well finished bungalows, one block from Oak Bay Avenue. Six rooms, furnace, built-in effects.

Price **$4800**. Cash $800.

Heisterman, Forman & Co.

1210 Broad Street.

Real Estate and Investments—Insurance

Kingston Street

60 x 120

PRICE AND TERMS EASY

This property lies midway between Montreal and Oswego Streets, and is in direct sympathy with the great commercial development that is certain to occur in this portion of James Bay. The construction of the breakwater and ocean docks, the bridging of the harbor at Laurel Point and the building of railway trackage must bring this property into commercial use. Meanwhile it is a fine residence or apartment site, being within a few minutes' walk of the central business portion of Victoria.

AT THE PRICE, $5,500

It is a veritable snap. The terms are very easy, viz., 20 per cent cash and 20 per cent in four annual payments at 7 per cent.

With the acknowledged and provided great increase in Victoria's advancement, the purchase of this property is a gilt-edged investment.

NOTICE TO CONTRACTORS

Separate tenders, superscribed,
"Tender for Residence for Head Gardener,"
"Tender for Residence for Engineer,"
"Tender for Residence for the Bursar,"
"Tender for Residence for Assistant Medical Superintendent,"

respectively, will be received by the Honorable the Minister of Public Works up to noon of Monday, the 28th day of July, 1913, for the erection and completion of the following residences at the Mental Hospital, Essondale, B. C.:

"Residence for the Head Gardener,"
"Residence for the Engineer,"
"Residence for the Bursar,"
"Residence for the Assistant Medical Superintendent."

Plans, specifications, contract and forms of tender for each building may be seen on and after the 5th day of July, 1913, at the offices of J. Mahony, Government Agent, Vancouver; S. A. Fletcher, Government Agent, New Westminster; and the Department of Public Works, Victoria, B. C.

Intending tenderers can, by applying to the undersigned, obtain one copy of drawings and specifications of each building for the sum of fifteen dollars ($15) for each set required, which will be refunded on their return in good order.

Each proposal must be accompanied by an accepted bank cheque or certificate of deposit on a chartered bank of Canada, made payable to the Honorable the Minister of Public Works, for the sum of five per cent of the tender price, which shall be forfeited if the party tendering decline to enter into contract when called upon to do so, or if he fail to complete the work contracted for. The cheques or certificates of deposit of unsuccessful tenderers will be returned to them upon the execution of the contract.

Tenders will not be considered unless made out on the forms supplied, signed with the actual signature of the tenderer, and enclosed in the envelopes furnished.

The lowest or any tender not necessarily accepted.

J. E. GRIFFITH,
Public Works Engineer

Department of Public Works
Victoria, B. C., July 4, 1913

THE HALLIDAY CLYDE CO., LIMITED

Notice is hereby given that the above Company has resolved, by special resolution, to change its name to G. Halliday & Sons, Limited, and will, one month after the date hereof, apply to the Registrar of Joint Stock Companies to change its name accordingly.

THORNTON FELL,
Solicitor for the Company.

Dated at Victoria, B. C., this 7th day of July, 1913.

NAVIGABLE WATER PROTECTION ACT

NOTICE is hereby given that John Musgrave of the City of Victoria, British Columbia, is applying to His Excellency, the Governor-General of Canada in Council for approval of the area, plans, site and description of the works proposed to be constructed in Victoria Harbor, Victoria, British Columbia, being land situate, lying and being in the City of Victoria aforesaid, and known, numbered and described as Lot 565a and the easterly six feet of Lot 566a, Victoria City, and has deposited the site plans of the proposed works and description thereof with the Minister of Public Works at Ottawa, and a duplicate thereof with the Registrar-General of Titles at the Land Registry Office at the City of Victoria, British Columbia, and that the matter will be proceeded with at the expiration of one month from the time of the first publication of this notice in The Canada Gazette.

Dated this 25th day of June, 1913.

JOHN MUSGRAVE,
By his solicitors, Robertson & Heisterman, 514 Fort Street, Victoria, B. C.

NOTICE

Newport Avenue will be closed to traffic from Orchid to Central Avenue, until further notice.

R. W. FOWLER,
Engineer.

Discontinuance of Partnership

To Whom it May Concern—Any partnership heretofore existing between the undersigned and Roland George Strange in the business of builders and contractors, under the firm name of Seaborne & Co., has been discontinued.

C. D. SEABORNE.

Dated the 15th day of May, 1913.

Owner Must Sell

A beautiful piece of property, overlooking the water; good soil, no rock, 114x135. Very easy terms. Price..$2,500

EAGEL & LINEHAM

212 Union Bank Building — Phone 4630

Alberni Snap

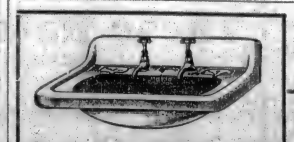

Twenty to twenty-one acres, situated on a good road, one and three-quarter mile from the city of Alberni; good land, no rock; adjoining property selling from $100 to $150 per acre. This would make an ideal fruit and chicken ranch, and the price is away below market value. Price per acre..... $80.

Branches at Toronto, Winnipeg, Vancouver. On sale at PHILLIP MORRIS & CO., LTD., 22 NEW BOND STREET, LONDON, ENGLAND (Sole Agents for United Kingdom).

It's a Canadian Invasion!

The American Woollen Trust shouted ruin when a Congressman proposed giving a free admission to $300 worth of wearing apparel to returning tourists.

Every American tourist would go to Canada and buy Semi-ready clothes and fine woollens, said they.

Right they are!

Thousands of Americans living in the Border Cities appreciate the fact that they can buy New York styles and British woollens in Canada at savings of from $10 to $25 on each Suit or Overcoat.

Semi-ready Suits of the finest texture, West of England worsteds of superfine weave, which sell in Canada at $30 and $35, would cost $50 and $60 in any American city.

That's a fact—and that is why the talked-of invasion of American clothes in Canada sounds silly.

MEARNS & FULLER
CORNER VIEW AND DOUGLAS STREETS

SOCIAL AND PERSONAL

Mr. J. P. Shaw, M. P. P., for Kamloops, is at the Empress.

Mr. George Jay has left for Vancouver to attend a meeting at McGill University.

Miss L. Nathan, of 1330 Rudlin Avenue, left last evening for a visit to Seattle.

Mrs. L. M. Proctor, of Vancouver, and Miss Bosworth, of Ogdensburg, N. Y., sisters of Vice-President G. M. Bosworth, of the C. P. R., are guests at the Empress Hotel.

On Tuesday evening last a very pretty wedding took place at the home of the bride's parents, 1214 Kings Road, when Elsie, the youngest daughter of Mr. and Mrs. W. H. Clarke, was united in marriage to Mr. H. N. Kinnear, of Brighton, Eng.

The marriage of Mr. William Irwin Arnold, of the Canadian Bank of Commerce in this city, and second son of Rev. William Arnold, M. A., Enniscorthy, Ireland to Rose Mildred, daughter of Mr. W. C. Watson, also of Victoria, has been arranged to take place on August 11, at 565 Sumas Street, the residence of the bride's father.

Mrs. F. G. Mitchell and Miss Dorothy Mitchell, of Vancouver; Mr. J. J. Chartres Thomson, of Hamilton, Ont.; Mrs. L. M. Procter, of Vancouver; Mrs. A. H. Southworth, of Washington D. C., and Mrs. R. A. Mitchell, of London, Ont., are among the guests registered at the Empress.

At Kelowna, B. C., on the morning of July 15, an interesting marriage was solemnized at the home of Mr. and Mrs. W. D. Harvey, when their daughter, Annie Elizabeth, became the bride of Mr. Arthur B. Latimer, of Canmore, Alta., the officiating clergyman being the Rev. A. Dunn. The ceremony took place at 10 o'clock, Mrs. Charles Harvey playing Mendelssohn's Wedding March as the bride entered the room, attended by her sister, Miss Minnie Harvey. Very charming she looked in her bridal gown of ivory duchess satin, with embroidered veil and orange blossoms, and carrying a shower bouquet of white carnations. Her bridesmaid was gowned in pale pink ninon veiling, pink satin, and her flowers were pink carnations. The scheme of decoration in the drawing room was prettily carried out in pink and white, chains of flowers forming an arch, from which was suspended a large floral bell, under which the bridal party stood. At the conclusion of the service the young couple left by automobile for Vernon, where they took train for Vancouver and other cities on the Coast, the bride traveling in a smart tailored suit of brown cloth, with hat to match. Mr. and Mrs. Latimer will return to Canmore, Alta., to reside. The groom's gift to the bride was a bracelet set with diamonds, while to the maid of honor he gave a pretty bar pin set with sapphires and pearls. Both Bride and groom were recipients of many beautiful presents.

Town Almost Destroyed

PORTLAND, Ore., July 18.—The business portion of Sheridan, Ore., about sixty miles southwest from Portland, was wiped out by a fire, which started this evening at 5:30 o'clock. The loss is placed at $200,000 to $300,000. The district on the south side of the river is completely burned. Two-thirds of the city is wiped out.

Included in the destroyed buildings are both banks, the Sheridan Hotel, restaurants, general merchandise stores and residences. The flames were not completely under control at 9 o'clock. An engine and crew went from McMinnville, Ore., fire department, twenty miles away, in response to a call for outside help.

Sheridan has about 1,500 people. The fire originated in a small restaurant, it is believed. As practically all the buildings are frame, the fire made easy progress.

Mountain Climber Killed

BERNE, July 18.—Pfarrer Paul Baumgartner, aged 30, an experienced ski-runner, has been killed on the Turmlihorn, a mountain in the Niesen range 8,170 feet high. Herr Baumgartner was roped together with a friend, and when they were passing a difficult spot a stone suddenly fell from above and struck him on the legs, causing him to lose his footing. His companion held the rope securely, hoping to save him, but the rope broke on a sharp rock and Herr Baumgartner fell over 600 feet down a moraine and was killed.

Proposed Australian Carnival

SYDNEY N.S.W., July 18.—An interesting proposal for holding an Australian carnival in London in 1915 is submitted by the president of the Millions Club. The scheme includes an exhibition of Australian manufactures and products, pictorial representations of the climatic, scenic and other advantages of the country, athletic sections and other features. The carnival, which will be independent of Government aid, will, it is hoped, advertise the country. An organizer has already been sent to London.

Panama Town Will Be Abandoned

PANAMA, July 18.—The closing of the public offices of the town of Gorgonna, a town on the Panama Canal, which soon will be inundated by the rising waters of Gatun Lake, began today with the abandonment of the police station. The town will be vacated by all its inhabitants as quickly as possible after August 1. Gorgonna is twenty miles northwest of the city of Panama, at the head of the Chagres River. The water in Gatun Lake has risen three feet since the spill way gates of the canal were closed on June 27.

Sudden Death at Woodstock

WOODSTOCK, Ont., July 18.—A. Spoorer, proprietor of the Hotel Oxford, was found dead on the front balcony of the hotel early this morning. Death was due to heart trouble.

Two New Atlantic Cables

LISBON, July 18.—Two new cables will connect the United States and England by way of the Azores. The contract was signed today between the Portuguese Government and the Europe & Azores Telegraph Company.

CANADIAN PACIFIC WINS

Decision of Railway Commission in Question of Right-of-Way in North Vancouver

OTTAWA, July 18.—By a judgment handed down by the railway commission, the long-retarded railway development of the north shore of Burrard Inlet, Vancouver, has been settled. The railways have been striving for right-of-ways in North Vancouver, but the decision favors the Canadian Pacific Railway location plans, with the stipulation that there be but one line along the shore, and the C. P. R. allow the Pacific Great Eastern and the Burrard Inlet Radial line running rights.

SPAIN TO CONTINUE WAR

Premier Denies Report That Government Intends to Adopt Pacific Measures in Morocco

SAN SABASTIAN, Spain, July 18.—Count Romanones, the Premier, after a long interview today with King Alfonso concerning the situation in Morocco, denied reports that the Spanish Government had decided to discontinue the war there and adopt pacific measures. He said it was impossible for Spain to modify her present policy in Morocco.

Burned to Death on Steamer

BOSTON, Mass., July 18.—The wooden side-wheeler City of Bangor, of the Eastern Steamship Company, while tied to her wharf today, burst out in flames, the fire starting in the boiler room and sweeping through her forward part with startling rapidity. Flanked by the city fire engines and fireboats that pumped tons of water into her, the steamer, valued at $200,000, escaped destruction after her crew had made a brave but hopeless fight. As it was, the fire moved so swiftly that one man was burned to death, several others were injured and Captain Blair escaped barely with his life. The damage is estimated at $50,000.

Shooting at Bisley

BISLEY, Eng., July 18.—Shooting today for the Association Cup, a service rifle event open to all comers throughout the meeting, Staff-Sergt. Hawley, of Winnipeg 30th, made possibles at both ranges, 200 and 500 yards, and will later on shoot off with others who obtained the possible. In today's sweepstakes, Private Denholm, Winnipeg 79th, made a possible at 200 yards, and Sergt. Lee, London, Ont., made a possible at 300 yards. Several Canadians won small amounts in these events. The Duke of Connaught may inspect the Canadians during the meeting.

Strike of Shipbuilders Spreads

KIEL, July 18.—Eight thousand workmen in the shipbuilding yards here joined today in the strike started by 20,000 at Hamburg on July 14, and indications point to the strike spreading to the other shipyards on the Baltic Sea. At Stettin, 300 riveters laid down their tools today.

Minister Dies Suddenly

BELLEVILLE, Ont., July 18.—Rev. J. R. Robinson, pastor of the Methodist Church at Shannonville, died suddenly last night from an attack of heart failure. The deceased was about eighty-five years old and had been forty years in the ministry.

Received by the Queen Mother

LONDON, July 18.—The Queen Mother Alexandra this afternoon received W. H. Page, the American Ambassador, at Marlborough House.

There are 93,000,000 sheep in Australia.

UMATILLA HAD ROUGH PASSAGE

Captain Reilly's Command Had to Buck Strong Winds and Head Seas All the Way From San Francisco.

ARRIVED IN PORT MANY HOURS LATE

Pacific Coast Vessel Brought Another Large List of Tourists From California Summer Resorts.

Hampered throughout the entire passage by strong head winds and seas, the Pacific Coast steamship Umatilla, Captain Reilly, reached port from San Francisco at 3 o'clock yesterday afternoon, fifteen hours behind her schedule.

When the Umatilla poked her nose outside the Golden Gate on Tuesday evening, she was struck by the full force of the wind, which at times reached hurricane proportions, and it was not until the staunch coast vessel passed in at Tatoosh yesterday morning that she escaped the angry elements.

By hugging the California coast Captain Reilly hoped to escape the full force of the gale, but as the wind was blowing for the greater part of the time from the northwest, there was nothing left for the genial skipper to do but to drive her dead ahead in the hope of the tempest dying down before the vessel got abreast of the Columbia. Even when off the famous bar the wind still continued to play pranks with the Umatilla, and the officers of the ship were heartily glad when the namesake lightship was sighted. Navigation was made difficult during the latter stages of the voyage by the Umatilla encountering rolling banks of fog. After passing in at the Straits the Pacific coast vessel made fast time to the Race Rocks with a stiff but favorable breeze behind her.

Many Come North

The Umatilla brought a full list of tourists, the majority of whom are returning to British Columbia and Puget Sound after spending a vacation under the sunny skies of California. All told she had on board 122 first-class and twenty-five second-class passengers. Of this number forty disembarked at the Outer Docks when the vessel took up her berth.

In spite of the rough weather experienced on the voyage, the large number of passengers managed to enjoy themselves thoroughly, if only by sitting in the smoking-room listening to the orders delivered by the skipper in thunderous tones, which paled the storm into insignificance.

The following passengers disembarked at Victoria: H. C. Ravanhold, Mrs. G. Furness, J. B. Nesbitt, J. S. Steedman and wife, Bessie Geary, Geo. F. Wright and wife, J. Halzer, E. Shields, Mrs. Belle Bell, F. Loveless, F. R. Robinson, J. J. McLaurin, M. Wagner, G. Flanagan, E. Lindhard, A. Jorgensen, Geo. E. Chrysler, Mrs. Rosa Lynch, J. R. McKennell and wife, Andy Mitchell, E. H. Arundel, J. N. Roberts, Amy Walker, E. C. Copish, L. Baker and wife, A. G. Rackhel, Mrs. C. Clark, Amy Gaiser, Agnes Brown, Jessie Anderson and H. L. Anderson.

The Umatilla left about 8 o'clock last night for Seattle after discharging some 500 tons of California freight.

Long Trip of Celtic King

Although the Maple Leaf freighter Celtic King was supposed to have left San Francisco on Monday for Victoria and Vancouver, nothing was seen of her by the officers of the Umatilla, which sailed on Tuesday afternoon from the Golden Gate port.

It is probable that the Celtic King met with the same weather that retarded the progress of the coastal boat, in which case she would not make much headway, as she is carrying a heavy cargo of steel rails. The Umatilla hugged the coast all the way up, which accounts for her not sighting the New York freighter.

Captain Anderson, one of the Vancouver pilots, has been in Victoria several days awaiting the arrival of the Celtic King to take her up to Vancouver. Although the long passage of the steamship from California is causing some comment, no anxiety is felt for the vessel's safety. She will probably pass in at an early hour this morning. Captain Humphreys is again bringing the Celtic King from the Atlantic Coast.

Terra Nova Buyers

The Terra Nova, which is now in Bute drydock, Cardiff, undergoing examination, has been sold to C. T. Bowring & Co., Liverpool, London and Cardiff. This firm formerly owned the Terra Nova, and when sold to the manager of the Scott Antarctic expedition it was with an option of repurchase at the conclusion of the expedition. The vessel will soon leave Cardiff for Newfoundland, where she will be employed in the sealing industry.

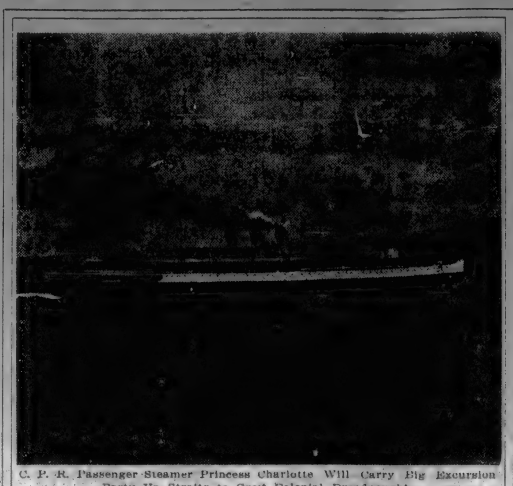

Latest Charters on Coast

The Robert Dollar Company has chartered the Norwegian steamer Bangor for a cargo of sugar from the Philippines to San Francisco.

The British ship William T. Lewis, owned by Hind, Rolph & Co., has been chartered by Pope & Talbot for lumber from Puget Sound to South Africa at 75 shillings.

The schooner Inca has been chartered for a cargo of coal from Newcastle, Australia, to Puget Sound, and the barkentine James Tuft from Newcastle to British Columbia.

Goes Out to Meet H.M.S. New Zealand

C. P. R. Passenger Steamer Princess Charlotte Will Carry Big Excursion Party Up Straits to Greet Colonial Dreadnought.

CHARLOTTE TO GREET WARSHIP

Crack Flyer of Triangular Fleet Will Take Out 1,500 Victorians to Get the First Glimpse of New Zealand.

In addition to the large fleet of local yachts, and other small craft, which, it is announced, will file out of the harbor in line to meet the New Zealand battle-cruiser H. M. S. New Zealand, when she steams up the Straits on Friday next, it is planned to dispatch at least one large excursion steamer in the direction of the Cape to celebrate the arrival of the largest warship that ever ploughed her way into British Columbia waters.

On Friday next the fine C. P. R. ferry steamer Princess Charlotte will be temporarily withdrawn from the triangular service, and sent out with a load of excursionists to greet the New Zealand as she heads up the Straits of Juan de Fuca.

Fifteen Hundred to Go

Over 1,500 Victorians will have the opportunity of securing a first glimpse of the huge dreadnought, as the C. P. R. are now issuing that number of excursion tickets at a dollar per head. The Princess Charlotte will be decorated from stem to stern in honor of the unusual occasion, and with her speed, will take the lead in the procession of small craft.

The tickets are being rapidly bought up, and the C. P. R. officials anticipate that all will be sold out by the date prior to the arrival of the battleship. The C. P. R. will time the departure of the Princess Charlotte with the arrival of the New Zealand off Cape Flattery. Just as soon as the dreadnought flashes the exact time of her arrival here, the time for the departure of the excursion steamer will be announced through the usual channels.

The New Zealand was scheduled to sail from Honolulu yesterday, and it is probable that she will steam past Tatoosh early next Friday forenoon.

SYDNEY, N.S.W.—Arrived: Schr. Inca, from Columbia River.

Castle's Position

Following on the heels of the steamship Candidate, the Harrison Direct liner Crown of Castile, Captain McKillop, passed Punta Arenas on Wednesday last, en route to Victoria from Liverpool via Santos.

ALTERATIONS TO LORNE

Well-Known Tug Is Now Being Converted Into an Oil-Burner At Vancouver.

After she had towed the British ship Bay of Biscay to Vancouver from the Royal Roads, the tug Lorne, Captain Cutler, went out of commission and took up her berth at the Wallace yards, where she will be turned into an oil-burner.

The Lorne is the most powerful tug on the coast, and was built at Victoria in 1889, for the Dunsmuir interests. Her builders were Middleton and Booth and her engines were installed by the Albion Iron Works. Some four years ago a new boiler was installed at Seattle. The Lorne has a speed of eleven knots, and can tow a ship almost as fast if she goes light. She draws seventeen feet. Subsequent to her conversion as an oil-burner, the Lorne will be fitted with a patent towing apparatus.

LARGE INFLUX OF IMMIGRANTS

Vessels of White Star Line Handle Nearly 1,000,000 Passengers Inside of Six Months—Rush to Canada.

During the first six months of the present year nearly a million passengers were transported from Europe by the steamship lines operated by the International Mercantile Marine Company to Atlantic ports of the United States and Canada, a fact which clearly demonstrates the phenomenal development of travel. Between the months of January and June, inclusive, 24,270 first class, 147,184 second class and 693,862 third class passengers arrived at American and Canadian Atlantic ports by vessels of the White Star line, White Star-Dominion and other lines subsidiary to the International Mercantile Marine. According to Mr. A. E. Disney, general agent for the I. M. M. Co. on the Pacific Coast, with headquarters at Seattle, who has been in town for the past few days, the rush to Canada from Great Britain is exceptional. To accommodate all the immigrants wishing to settle in Canada the White Star line was compelled to divert two of its large passenger steamships on the Boston route to Canadian ports. This was done until recently, when the extra boats were allowed to resume their regular schedules from Liverpool to Boston. Mr. Disney states that a healthy condition of things exists throughout the continent, and the prosperous times were never more clearly reflected than by the tremendous increase in travel.

Thode Fagelund Returning

The Norwegian steamer Thode Fagelund, left Muroran, Japan, on Thursday for British Columbia ports.

TIDE TABLES OF VICTORIA

JULY, 1913

The times at which the tides rise and fall at Victoria and their height are as follows:

Date	Time	Ht.	Time	Ht.	Time	Ht.	Time	Ht.

30	6 47	1.1					21 49	9.1
31	7 30	0.4					22 34	9.2

The time used is Pacific Standard, for the 120th Meridian west. It is counted from 0 to 24 hours, from midnight to midnight. The figures for height serve to distinguish high water from low water.

The height is in feet and tenths of a foot, above the average level of the lowest low water in each month of the year.

Esquimalt—To find the depth of the water on the sill of the drydock at any tide, add 19 feet to the height of high water as given above.

C.P.R. BOAT WILL BE TOWED ACROSS

Powerful Liverpool Tug Will Tow Passenger Steamer St. George From Mersey to Halifax—Insured for Big Sum.

A very interesting point of navigation has arisen in the case of the triple-screw turbine steamer St. George, which was recently acquired from the Great Western Railway by the Canadian Pacific Railway for its trade in the Bay of Fundy.

The St. George is a sheltered deck boat of 2,456 tons, built in 1906, and has since then been running in the Great Western service between Fishguard and Rosslare. It appears, however, that it is not possible to bunker her sufficiently for the trip across the Atlantic from Mersey to Halifax and St. John. Accordingly, arrangements have been made for the Liverpool tug Blackcock to tow the St. George to Halifax, but the passenger vessel will have her crew on board and will be fully coaled.

This precaution is taken in case the St. George may get adrift from the tug in bad weather; but it will be something new to tow across the Atlantic a fully powered and large steamer which is not disabled in any way.

The Canadian-Pacific is insuring the St. George for the voyage across the Atlantic on a valuation of approximately $400,000.

SHIPPING INTELLIGENCE

(By Government Wireless.)

8 a.m.

Point Grey—Clear; calm; 30.22.

Cape Lazo—Clear; N. W., 30.22; 83; sea smooth. Spoke, 9:55 p.m., SS. Spokane, off Cape Lazo, northbound.

Tatoosh—Clear; N. E., 22 miles; 30.20; 50; sea smooth. Out, H. T. Scott, 4:40 a.m. In, SS. Melville Dollar, 7:45 a.m.; steamer, 8 a.m.

NOTICE TO CREDITORS

In the Matter of Olive A. Green Insolvent

Notice is hereby given that the above named insolvent of the City of Victoria, in the Province of British Columbia, carrying on business as a rooming house keeper at 1131 Meare Street, in the said city, has made an assignment of her estate to me for the general benefit of her creditors under the "Creditors' Trust Deeds Act" Revised Statutes of British Columbia, 1911 Cap. 13.

The creditors are notified to meet at my office at 331 Pemberton Building, Victoria, B. C., on Tuesday, the 22nd day of July, 1913, at the hour of 4:30 o'clock in the afternoon, for the purpose of receiving a statement of the insolvent's affairs, for the appointment of inspectors, and the giving of directions with reference to the disposal of the estate.

All persons claiming to be entitled to rank on the estate must file their claims with me on or before the 18th eighteenth day of August, 1913, after which date I will proceed to distribute the assets thereof, having regard to those claims only of which I shall then have received notice, and I will not be liable for the said assets or any part thereof to any person of whose claim I have not then received notice.

W. B. VAUGHAN, Assignee.
331 Pemberton Building, Victoria, B. C.
July 12, 1913.

TENDERS

TENDERS wanted for the making of Lakeside Avenue in the Lakeside Subdivision on Saanich Road, and the building of a bridge in connection with the same. The street must be made and the bridge built in accordance with the requirements of the Saanich Municipality. Tenders to be delivered at our office not later than 12 o'clock noon on Saturday, July 26th. The lowest of any tender not necessarily accepted.

626 Fort Street, Victoria, B.C.

Stock Markets and Financial News

EXPANSION IN STOCK MARKET

Trading Considerably Larger Than for Some Time—Forced Covering Results in Demand for Steel.

NEW YORK, July 18.—The forward movement in stocks was resumed today with vigor following the interruption in the advance which began several days ago. Trading was on a considerably larger scale and the rise was the most comprehensive of several weeks. Union Pacific, Reading, C. P. R., Harvester and various other stocks mounted two points or more, with lesser gains for most of the remainder of the list. While the close was below the best prices in some cases, owing to realizing sales, no serious inroads were made on the day's gains.

More than one-fourth of the trading was in Steel, the demand for which apparently was due in large part to forced coverings.

The appearance here during the week of foreign money for short term loans gave convincing evidence of better monetary conditions abroad.

The course of New Haven was watched closely owing to the announcement over night of President Mellen's resignation. Traders who viewed this development as bullish bought the stock, marking up the price two points.

Subsequently it fell off sharply, closing at a loss on the day of 2½. New Haven six's lost 1½.

Bonds were firm. Total sales (par value) $1,865,000.

Panama 3's registered and coupon declined ½ on call.

GRAIN MARKETS

WINNIPEG, Man., July 18.—Wheat markets started out weak on the favorable weather conditions for maturing the crops over the Northwestern States and Canada, but later prices advanced sharply on the rust rumors from South Dakota and Saskatchewan, easing off slightly at the close. The volume of business was light in options.

Winnipeg opened unchanged to ¼ lower and closed with a gain for the day of ⅜ for the distant months and unchanged for July. Minneapolis opened ¼c to ½c lower and closed ⅛o to ¼c higher. Chicago opened ⅛c to ¼c lower and closed ⅜c higher.

The cash demand was more active today and offerings fairly liberal, while for export there was a better inquiry. Cash prices closed ¼c higher for contract grades.

Oats were stronger while flax was a shade easier. Cash oats closed unchanged to ¼c higher. Options closed unchanged to ¼c higher. Cash flax closed ½c to 1c lower, options ½c to 1c lower.

Deliveries through the clearing house were: Wheat 50,000 bushels, oats 16,000 bushels and flax 21,500 bushels.

Inspections on Thursday were 169 cars and in sight 178 cars.

MONTREAL STOCKS

MONTREAL, July 18.—Strength of C. P. R. in New York and the advance in prices there exerted a good influence on the local stock market today, and leading issues like C. P. R., Brazilian and Richelieu scored advances from 1 to 3 points. The strength of the leaders, however, was reflected only to a slight extent in the general market and the movement was not as broad nor as convincing as that which marked the upturn on Wednesday.

Spanish River was active and weak, breaking from 42 on Thursday to a new low for the year of 39½ at the closing here. In a general way, however, the market closed with a fairly good tone.

CANADIAN TRADE REPORTS

Improvement in the West Where Favorable Crop Prospects Have Stimulated Business

NEW YORK, July 18.—Dispatches to Dun's Review from branches in the leading trade centres of the Dominion note somewhat quiet conditions with merchants generally awaiting crop forecasts before entering into extensive future commitments.

Wholesale trade at Montreal is not very active and retail business is quiet as usual at this season. There is a fair movement of groceries, especially of sugar, but there is only a moderate placing of orders for dry goods. The iron market is dull but there is a good call for hardware. Receipts of hides are fair and some increase is noted in the inquiry for leather, with both commodities firmly held.

At Quebec general trade is well maintained and local manufacturers are fairly busy.

Toronto reports a slow movement of merchandise, as usual at this season, although there is good trade in groceries and hides. Leather and wool displayed strength. Merchants have large orders for Fall and Winter goods, but the delivery of these will depend upon crop results. Prospects, however, in this respect are favorable and there is much confidence in the future.

At Hamilton provisions still show the usual dullness of the season.

In the far west and Northwest there seems to be a slight improvement, the generally favorable crop prospects having had a stimulating effect on business.

Winnipeg reports that retail stocks of merchandise have been well reduced, but merchants are not yet disposed to buy much beyond immediate requirements. Crop prospects are excellent and labor is well employed.

Most lines of trade at Saskatoon are quiet on account of the inclement weather, which has put the roads in bad shape for traffic, but there is general confidence in the situation and a large Fall business is looked for.

Edmonton reports that trade conditions both in the city and country show no improvement but that the splendid crop prospects have a stimulating effect on sentiment.

At Vancouver a better sorting trade is reported, but merchants continue to operate conservatively in Fall requirements.

Gross earnings of all Canadian railroads reporting to date for the first week of July show a gain of 8.2 per cent as compared with the earnings of the same roads for the corresponding period a year ago.

Commercial failures in the Dominion this week numbered 36 against 24 last week and 37 the same week last year.

CITY OF VICTORIA

NOTICE TO CONTRACTORS

Proposals are invited by the Water Commissioner, Victoria, B.C., until noon, July 25, 1913, for the construction of rough timber trestles to carry temporary construction railway along the line of the concrete pipe location of the Sooke Water Supply.

For further information regarding this, call at the Office of the Consulting Engineer, 1414 Douglas Street, Victoria, B.C.

The lowest or any proposal not necessarily accepted.

C. H. RUST,
Water Commissioner.
Victoria, B.C., July 16, 1913.

CATERING IN STADACONA AND GORGE PARKS

Bids will be received at the office of the undersigned, until Monday next, the 21st instant, at 4 p.m., for the privilege of vending refreshments, non-alcoholic drinks, confections, etc., in the said parks, during the Summer season of this year. The successful bidder will be expected to erect a suitable booth or booths, to the satisfaction of the Chairman of the Park Committee, Alderman J. Dilworth, 570, Simcoe Street.

The Corporation reserves the right to reject any or all bids, and to cancel the concession and annul the privilege in either case, at any time, without compensation, if it is not exercised to the satisfaction of the Chairman of the Park Committee, or the City Council.

Bids may be for the privilege in both parks, or in one only.

H. E. YOUNG,
Provincial Secretary.
Victoria, B. C., July 3, 1913.

VICTORIA TRANSFER COMPANY

Horses for Sale
We have horses of all classes for sale, and are ready at all times to exhibit such to intending purchasers. It will pay you to see us before purchasing.

Harness for Sale
We have new and second-hand sets—double and single—for sale at reasonable rates. Farmers should see these, as they are suitable for light driving.

Cabs
Do you know that our Glass Front Carriages are at your disposal at $2.00 per hour?

Victorias
If you wish, we can furnish a Victoria at $2.50 per hour. These vehicles accommodate three persons, and are most suitable for ladies doing afternoon calling.

Livery
Better Single or Double Traps cannot be found on the Pacific Coast. Single Horse and Trap—Morning, $2.50; Afternoon, $3.00.

Boarders
We board your horse, look after your trap and harness—per month, $25.00. Our object is to please our patrons. We are responsible to them as to safety and damage done to furniture or goods. Our drivers, we believe, are civil and careful, and seldom knowingly overcharge. If by any chance a mistake occurs, come to the office or notify us at once. In other words, give us an opportunity to put right anything that displeases you.

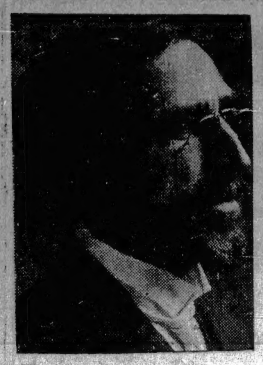

Teams
We are prepared to supply teams for half a day at $5.00, excepting Saturdays, Sundays and holidays, when the charge will be, half a day, $7.50. For long distance, the office will furnish particulars.

Furniture Trucks
Furniture moving is an important undertaking. We have men who do nothing else. Our charges are—by the hour, $1.50. With an extra man to help, the charges will be increased to $2.00 per hour.

Baggage and Express
In this department prompt delivery is the important factor. If you are catching a steamer or train, you like to know that your luggage or packages will be at the wharf or station in good time to depart with you. What is more annoying than searching for your belongings a minute before your steamer sails or your train pulls out? This is offset by our claim checks. Our drivers check your baggage at your residence. You present the claim check to the baggage master—show your ticket—he then gives you the railway or steamer check, and that is all. You then go on your way rejoicing. If we cannot attend to your order we will tell you and thus avoid suspense.

Express and General Drayage
We have thirty-seven Express and Delivery Wagons. For the use of one of these we make a charge of—per hour, $1.00.

Telephone 129
OPEN DAY AND NIGHT

PASTOR F. A. ACKESON,
Of Seattle, Wash.
Will lecture here Sunday, July 20, 3 p.m., at Moose Hall, 1613 Douglas Street

The subject will be: "GOD'S MESSAGE FOR THOSE WHO HAVE HEARING EARS." His message will be one of special interest to all those hungering and thirsting after righteousness. The message of God's Love as revealed in Christ Jesus. The Pastor is a deep student and a loyal upholder of the Bible as the inspired Word of God. This lecture, and those to follow will answer many questions long considered mysteries. The meetings are non-sectarian, proving all things from the standpoint of: "What Saith the Scriptures," and are follow-up meetings to those which have been delivered at the Alexandra Club in the last four weeks. All are cordially invited, seats free, no collection.

Photographers' Notice

A free demonstration of Dunne's famous photo and lantern slide colors will be given here July 15 and 16, from 2 to 5 p.m., by the manufacturer, who will be pleased to show you how to tint photos and slides.

WHEN LOCOMOTIVES RAN ON WOOD RAILS

Canadian Pacific Employee's Reminiscences of Early Days—Wet Weather Suspended All Railway Traffic.

Few railway men still in active service have a record extending back to the days when wooden rails were used in place of steel, and trains could not run when it was raining. Of that small band one at least is as bright and full of vigor as he ever was. That is Mr. Robert Miller, who occupies an important position in the operating department of the Canadian Pacific Railway at Windsor Street Station, Montreal. Mr. Miller, who recently celebrated the fortieth anniversary of his entry into railway work, began railroading on July 5, 1873, on the old Richelieu, Drummond and Arthabaska Railway, one of the wooden railways that had been built through the aid of the Province of Quebec a couple of years previously, and taken over by the South Eastern Railway.

"These wooden railways," Mr. Miller told a Montreal Witness reporter, "including the Gosford Railway, now part of the C.N.R. from Quebec to Lake St. John, were heavily subsidized by the Provincial Legislature of Quebec, and were built for $5,000 per mile, including grading, bridges (excepting the bridge over the Yamaska River), stations, and sidings. The rails were of maple four inches by seven, and were secured to the ties by a notch cut into it four inches deep and five inches wide, into which the rail was laid, and two wedges tightly driven between the rail and the cut in the tie, so that no iron whatever was used in construction.

No Winter Schedule

"When a rail was worn by the flange of the wheels, it was taken out, turned and replaced, so that a new edge was next to the wheel. A tie clear of knots lasted the life of the railway as a wooden one—about four years—but the knotted ones lasted only a few months.

"The wooden road could not be operated in the Winter, the snow clogging on the rail and the wheels of the locomotive would revolve rapidly without moving forward an inch. It could not be operated during a heavy rain—that is during a two or three days' rain.

"I remember," continued Mr. Miller, "an incident in this connection, when it was raining heavily at Drummondville. The train was stalled there two or three days. It was not raining in Sorel where the superintendent's office was located, and he wired me asking what was the matter with No. 1. We had only two trains, but they were numbered all right enough. My reply was, 'Held by rain.' To the same inquiry that night again, the following morning and night, my reply was the same. I next got a telegram from the superintendent, Mr. John Dodsworth. This was how the last telegram read, 'How many carpenters do you require to complete the ark in time?'

"The road was eventually put in iron in the Fall of 1876, by the Smith Eastern, and run through to Sutton Junction, where it connected with the main line of that road."

SHAKESPEARE CHEMISTRY

German Professor Says Poet's Writings Show His Knowledge of the Science

An interesting summary of Shakespeare's knowledge in the realm of chemistry, with passages illustrating the ideas in question, appeared some time ago in the Berichte of the German Pharmaceutical Society. The researches on the subject have been made by Professor Herman Schelenz, of Cassel, Germany. Some of the ideas advanced are most interesting, as will be seen from the following:

By universe the poet evidently meant infinite space, while by microcosm he understood man himself. Shakespeare was familiar with the four "elements," earth, air, fire and water. When he speaks of atoms he means no more than visible and palpable particles of dust. Alchemy meant to the poet first of all a kind of general transformation, and in particular a changing of baser substances into gold. The latter substance, as well as its uses for adornment and other purposes, was, of course, well known to Shakespeare, and he also mentions fool's gold. Silver was likewise known. Quicksilver is mentioned only twice, and the only one of its compounds spoken of is vermilion. Copper and its alloys are mentioned in several places. By pewter we are to understand tin, which at that time was not clearly distinguished from zinc and lead. Iron occurs frequently and white arsenic was not unknown to the poet.

It is not likely that Shakespeare knew much regarding alkalies. He speaks of saltpeter in one passage, apparently without knowing anything of its source. He has much to say of powder (gunpowder) and its uses. Common salt is also referred to, and lye, soot, tar and pitch were known. Likewise he knew of lime and its application, including its use in wine.

Among the gems with which he was acquainted is agate, by which he meant a bituminous coal, and also referred to as jet. Diamonds are often spoken of, and the words carbuncle, ruby, turquoise, onyx and opal appear.

Firestone or flint is used as a measure of hardness. Alabaster and marble are also much employed in similies. Tears are compared with pearls, the origin of which he knew. Crystal, signifying anything very precious, and glass are often met with. Other substances connected with glass manufacture are spoken of as enamels, fluxes, artificial gems and colored glasses.

Nothing that is said regarding sulphur or brimstone shows any special knowledge of this constituent of gunpowder.

Numerous passages give insight into the poet's knowledge in the field of organic chemistry.

SAVED BY HUMAN CHAIN

Man Falls Into River and Is Rescued on Brink of Niagara Falls

NIAGARA FALLS, N. Y., July 18.—Truman Chapman, 22 years of age, of Hamilton, Ont., was rescued on the brink of the American Falls today by four men, one of whom took a desperate chance to reach him. Chapman was sitting on the iron railing just above Prospect Point, and was seen suddenly to topple back in the stream.

At this point the current is swift, and the pull toward the brink of the falls fifteen feet away, almost irresistible. After striking the water, Chapman was lodged against two projections of rock, and this undoubtedly saved him from almost instant death.

When the cry went up that a man was in the water, John Hughes and Thomas S. Winders, of Niagara Falls, Thomas D. Thomas, of Toronto, and a fourth man, who did not give his name, leaped over the railing.

The unidentified man waded several feet, but did not reach Chapman. Hughes, Winders and Thomas then formed a chain from the iron fence, and clinging to the unknown's hand, enabled him to reach Chapman.

Twice the man at the end of the chain was swept from his feet, but he clung to his burden and finally swung him out of the grasp of the current.

PACIFIC GREAT EASTERN

Company Acquires Sixty-Five Acres on North Shore of Burrard Inlet—Details of Agreement

Mr. D'Arcy Tate, in conversation with a representative of The Colonist last night, corroborated the announcement that the Pacific Great Eastern Railway will establish large passenger and freight terminals in North Vancouver to serve the north shore of Burrard Inlet. The company have just concluded the purchase from Major James Pemberton Fell and Captain Henry Heywood—Heywood Lonsdale, of sixty-five acres, described as a portion of the Lonsdale property, and embracing district lot 264 in the municipality of North Vancouver. These will be the principal terminals for the north of Burrard Inlet, and a later announcement states that wharves will also be built on the adjacent foreshore, which is leased by the owners from the Dominion Government. The company, under this agreement, contracts to expend before the end of 1915, not less than $100,000, and before the end of 1918, an additional sum of $400,000.

Victim of Shooting Accident.

AYRESCLIFFE, Que., July 18.—The 19-year-old son of Supreme Court Justice Charles W. Parker, of New Jersey, died early this evening from a bullet wound in the abdomen. The shot was fired accidentally by a companion while the young men were shooting with a revolver at a target.

Baby Cars of all kinds. 755 Fort St.

PURIFIED HIS BLOOD

Dr. Morse's Indian Root Pills Healed Mr. Wilson's Sores

When the sewers of the body—bowels, kidneys and skin ducts—get clogged up, the blood quickly becomes impure and frequently sores break out over the body. The way to heal them, as Mr. Richard Wilson, who lives near London, Ont., found, is to purify the blood. He writes:

"For some time I had been in a low, depressed condition. My appetite left me and I soon began to suffer from indigestion. Quite a number of small sores and blotches formed all over my skin. I tried medicine for the blood and used many kinds of ointments, but without satisfactory results. What was wanted was a thorough cleansing of the blood, and I looked about in vain for some medicine that would accomplish this.

At last Dr. Morse's Indian Root Pills were brought to my notice, and they are one of the most wonderful medicines I have ever known. My blood was purified in a very short time, sores healed up, my indigestion vanished. They always have a place in my home and are looked upon as the family remedy."

Dr. Morse's Indian Root Pills cleanse the system thoroughly. Sold by all dealers at 25c a box. 6
